

Solar Diesel Hybrid Power System Market 2017 Global Significant Growth, Technological Advancement & Opportunities to 2021

PUNE, INDIA, January 19, 2017
/EINPresswire.com/ --

WiseGuyReports.Com Publish a New Market Research Report On – “Solar Diesel Hybrid Power Systems Market 2017 Global Significant Growth, Technological Advancement & Opportunities to 2021”.

The analysts forecast the global solar diesel hybrid power systems market to grow at a CAGR of 6.89% during the period 2016-2020.

[Off-grid power generation systems](#) are typically used when there is a lack of capital constraints or the geographical landscape makes it difficult to have a grid connection. Conventionally, the off-grid area is powered using fossil fuel generators, but environmental concerns and its sustainability in terms of cost, in the long run, has created the need for alternate solutions. A hybrid system that is a combination of two or more power sources such as renewables and diesel generators is an attractive option. The system harnesses the abundance of renewable sources that are freely available to generate electricity, and when combined with a diesel generator, it displaces the fuel consumption. Thus, it reduces the cost and the emission related to diesel power generation. The hybrid system can also be combined with other technologies such as battery storage to improve its effectiveness.

Covered in this report

The report covers the present scenario and the growth prospects of the global solar diesel hybrid power systems market for 2016-2020. The revenue calculation is based on the end-users that use solar diesel hybrid systems. The end-users include:

- Residences
- Hotels and resorts
- Hospitals
- Telecom

- Industries
- Mining
- Utilities/IIP's
- Offices and warehouses

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Solar Diesel Hybrid Power Systems Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Belectric
- Schneider Electric
- Siemens
- SMA

Other prominent vendors

- Danvest
- Electro power systems
- Elgris power
- Heliocentris
- OutBack Power
- Solgen

Market driver

- Application in remote locations
- For a full, detailed list, view our report

Complete Report Details @ <https://www.wiseguyreports.com/reports/700806-global-solar-diesel-hybrid-power-systems-market-2016-2020>

Market challenge

- High cost of installation
- For a full, detailed list, view our report

Market trend

- Increased popularity of portable power systems
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by end-user

- Global solar diesel hybrid power systems market by end user 2015
- Global solar diesel hybrid power systems market by end user 2020
- Global solar diesel hybrid power systems market by end-user 2015-2020
- Global solar diesel hybrid power systems market uses in utility sector
- Global solar diesel hybrid power systems market uses in non-residential sector
- Global solar diesel hybrid power systems market uses in residential sector

PART 07: Geographical segmentation

- Global solar diesel hybrid power systems market by geography 2015
- Global solar diesel hybrid power systems market by geography 2020
- Global solar diesel hybrid power systems market by geography 2015-2020
- Solar diesel hybrid power systems market in APAC
- Solar diesel hybrid power systems market in EMEA
- Solar diesel hybrid power systems market in Americas

PART 08: Market drivers

PART 09: Impact of drivers

PART 10: Market challenges

ABOUT US:

Wise Guy Reports is part of the Wise Guy Consultants Pvt. Ltd. and offers premium progressive statistical surveying, market research reports, analysis & forecast data for industries and governments around the globe. Wise Guy Reports features an exhaustive list of market research reports from hundreds of publishers worldwide. We boast a database spanning virtually every market category and an even more comprehensive collection of market research reports under these categories and sub-categories.
