

Global Vehicle Surveillance Market 2017 Share, Trend, Segmentation and Forecast to 2021

Vehicle Surveillance Market is projected to witness high growth over the period 2015 to 2021. The primary factors driving the growth of the market are benefits

PUNE, INDIA, January 19, 2017 /EINPresswire.com/ -- <u>Vehicle Surveillance</u> Market is projected to witness high growth over the period 2015 to 2021. The primary factors driving the growth of the market are benefits of in-vehicle surveillance systems, growing sales of premium cars, rise in road accidents and fatalities, and regulations in different countries to implement in-vehicle surveillance solutions. Higher penetration of Vehicle Surveillance in various developing countries is expected to boost the market significantly. However, the high costs and the complexity in installation act as the major hindrances to the growth of the market. Regionally, North America is expect to hold the largest market share. Asia Pacific is expected to grow at the highest rate due to rising demand for premium cars, improved standard of living and focus of governments towards safety and security of citizens.
