

# Match-Trade Technologies Opens a new office in Warsaw, Poland

IRVINE, CALIFORNIA, UNITED STATES, January 23, 2017 /EINPresswire.com/ -- Match-Trade Technologies LLC, ("Match-Trade"), headquartered in Irvine, California, a fully integrated [forex technology](#) company, is pleased to announce opening of a new office in Warsaw, Poland to target business development opportunities for the European and Asian markets.

Match-Trade Poland office will be located at 3rd floor in Panska Corner building, on Panska Street in Warsaw. Michael Karczewski will lead the office as the Head of Business Operations with special focus on supporting current and new clients from Europe and Asia. Mr. Karczewski brings vast knowledge and deep insights of Forex Technology and Liquidity Solutions. He gained extensive experience in FX Markets at XTB and HFT Brokers as the Head of Dealing Department. Match-Trade intends to open additional offices around the globe to market its services to new clients and to enhance customer support to its existing clients with a strong local presence.

Match-Trade's attractive flat competitive fee structure and exceptional support services enable forex brokers to manage and predict their technology costs. Match-Trade provides fully customizable solutions for various brokers ranging from hosting services and [MT4 white label](#) solutions, ultra-fast data feed, to bridge and aggregation technology and advanced risk management system for A Book and B Book brokers.

Match-Trade also offers one of the fastest and the most robust matching engine technology created for all types of Forex market participants who are interested in creating a fair, fully anonymous and independent venue, which is not skewed towards Liquidity Providers (LPs). The core of Match-Trade System is the Ultra-fast matching engine, which enables seamless execution of trades between various market participants and build additional liquidity, which was previously reserved only to standard LPs.

Panska Corner building, Panska 73

Key features of Match-Trade System are as follows:

- Execution of over 50,000 transactions per second
- Direct orders matching between market participants
- Free [MT4 FIX Bridge](#) for our institutional clients
- FIX API for retail clients and liquidity takers with full order book available via FIX
- Enhanced and Super Lite Web based Match-Trader platform

#### About Match-Trade Technologies

Match-Trade Technologies LLC, ("Match-Trade"), headquartered in Irvine, California is a fully integrated Forex technology provider that delivers turnkey matching engine solutions to all forex market participants looking to access the retail and institutional spot forex markets. Match-Trade has combined state of the art software components of matching engine technology that enable forex providers (Brokers, Prime Brokers, and other LPs) to participate in the new generation of transparent, distributed and independent ECN forex market.
