

RapidOps Solutions Powering Data Driven Insights with BI & Data Visualization

RapidOps Inc. has been contributing towards Information and Technology with all new innovation and creativity has now added one more weapon to its arsenal.

CHARLOTTE, NORTH CAROLINA, UNITED STATES, January 24, 2017 /EINPresswire.com/ -- RapidOps Inc. is contributing more towards data-driven insights for providing more vision towards Big Data solutions. RapidOps is now one of the leading names in BI and Data Visualization services because of providing powerful and visual solutions to its clientele.

The banner features a central image of a person in a white hard hat and a dark suit holding a laptop displaying a bar chart. The background is a dark blue grid with various icons representing data and technology, including gears, a computer monitor, a smartphone, and a document. The text 'RapidOps Solutions Powering Data Driven Insights with BI & Data Visualization' is prominently displayed in white. At the bottom, there is a dark blue bar with contact information: 'hello@rapidops.com', '+1-704-208-4338', and 'www.rapidops.com'. The RapidOps logo is also visible in the bottom right corner.

Catering to an array of industries, RapidOps has garnered accolades from all its clientele and that gave them the confidence to make Business Intelligence a part of their core competency. So far, RapidOps Inc. has worked for many medium and large-scale enterprises, and using disruptive technologies like Hadoop, MongoDB, Angular JS, Node JS, D3 JS, Apache Hive, Spark etc. Successful implementation of each of the mentioned technology in an apt way has been the solution that the company has successfully implemented in clients business process.

Vision

RapidOps has a team that comprises of more than 50 professionals who are taking care of the Data Visualization and Business Intelligence solutions using disruptive technologies.

Mr. Dipesh Patel, CTO - RapidOps, forecasted that AI will be playing a huge role whilst its integration with Big Data and in coming days the world will see innovations in technology that will make the working very smooth for both the general human population, and small and large industries.

But all this can be done in a subtle manner if and only if proper protocols of inducing the technologies like Cassandra, Splunk, Sigma JS are followed today.

The company understands the needs of the modern-day businesses and knows how to fulfill the demands of an industry which is very dynamic in nature. It hopes to grow at the same pace in which the technological world is growing. Meeting the clients' expectation with the same dedication and will that they had when they started this technologically adventurous journey in 2008.
