

# Collect or Die – Out Now on Android & iOS

*A gory retro platformer with dynamic ragdoll physics & stickman dismemberment*

ST AUSTELL, CORNWALL, UNITED KINGDOM, January 26, 2017  
/EINPresswire.com/ -- Out now on iOS & Android, 'Collect or Die' is a hardcore retro platformer with dynamic ragdoll physics & dismemberment. Stickmen will die... and it will be glorious!

Presented through the eyes of a CCTV operator watching an old CRT monitor players must advance through a series of ever more deadly test chambers in an abandoned science facility, the goal is simple, collect... or die! Of course its not as easy as it sounds, with a variety of enemies and hazards waiting to rip you limb from limb things will get tricky fast!

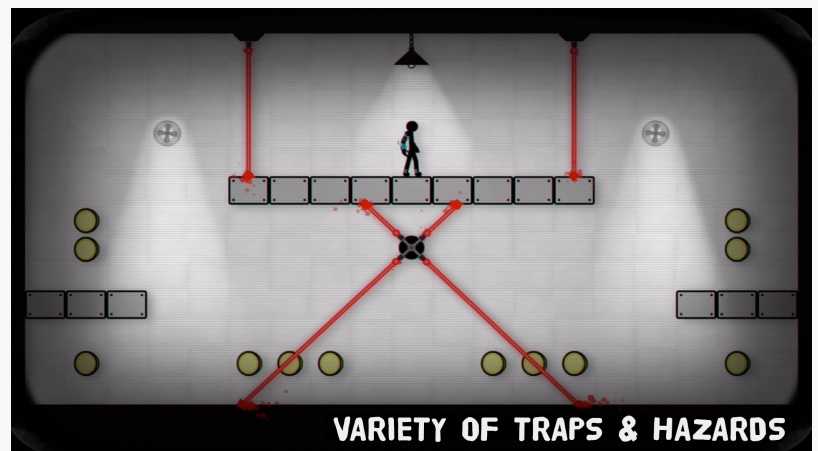

Heavily inspired by flash games of old and the popular Xiao Xiao stickman animations, Collect or Die is a call back to the retro days of game difficulty, brutal but fun.

Collect or Die has been designed entirely around motion and tilt controls for a mobile centric experience, no more on-screen controllers or buttons. Players can adjust the sensitivity of the controls and calibrate the central position of the device from the 80s style VHS pause menu.

The game ships with 40 levels, 40 more will be added periodically after release and will include new traps, challenges along and a conclusion to the game when the final levels are complete.
