MD Tech Solutions Introduces Our Amazing Contract Management System Designed For Government and Commercial Organizations

FREDERICKSBURG, VIRGINIA, USA, January 26, 2017 /EINPresswire.com/ -- MD Tech Solutions, LLC (MD Tech), a Virginia Based IT Product and Service Firm, is proud to introduce Digital Contract Management System (DCMS). DCMS provides Commercial and Government Agencies with the ability to improve their Management of Contracts. Our customized DCMS Solution provides full visibility of contract details to hold Personnel accountable through Active Task Assignment Tracking, and provide timely notifications, including alerts for upcoming due dates. Be prepared and in Compliance at your next audit. DCMS enhances your workforce efficiency with the centralization of the Contract Documents, an Approval Process and Funding Appropriation Tracking System. Not only will DCMS be an appropriate fit for your Organization, it will be a staple in your Contract Management Process. DCMS is a product your Organization will benefit from by saving Time and Money.

A Product of MD Tech Solutions

Hosting Options For DCMS Are Cloud And On Premises:

Tenant Shared provides a Cloud Solution for the DCMS System. This Solution is located in our Azure Cloud. This option gives you all the benefits of DCMS, to include accessibility from anywhere you have Internet Access. Additionally, this is the greatest Inexpensive Option.

Tenant Dedicated provides a Private Cloud Solution for hosting DCMS Solution. This Solution is located in our Azure Cloud. This option not only provides you with all the benefits of DCMS to include accessibility from anywhere you have Internet Access, but also provides additional security with having an entire environment dedicated to your Organization.

On Premises provide Onsite Client location for hosting DCMS Application. This option is only as secure as the Clients Secured Facility.

Features of DCMS
• User Friendly Interface
• Available to all Enterprise Users
• Record Security by Organization Affiliations

- Timely Reminders and Notifications
- Centralize Repository
- Auto-filled Document Types for Contract Renewals
- Approval Routing and Tracking System
- Automated Email Submission

Benefits
- Decrease Contract Cycle Time
- Reduce Revenue Leakage
- Increase Compliance
- Reduce Risk
- Improves Visibility
