

e-Nabler Teams Up with Vantiv to Offer EMV-Certified Tablet and Mobile POS Solution

The Vantiv and e-Nabler POS solution for tablets and mobile devices helps merchants in retail and hospitality achieve EMV compliance quickly and affordably

FORT LAUDERDALE, FLORIDA, USA, January 30, 2017 /EINPresswire.com/ -- [e-Nabler Corp.](#), developer of the award-winning POS software [eMobilePOS®](#), today announced a partnership with [Vantiv Integrated Payments](#) (NYSE: VNTV), a provider of payment technology and services for small and medium-size businesses. The partnership provides

U.S.-based small and medium-size retailers, restaurants and quick service restaurants with access to an affordable, EMV-compliant POS solution for tablets and other mobile devices. The combined offering will provide POS dealers, value-added resellers and systems integrators easy access to a complete POS solution with EMV-compliant payments via the Vantiv network.

“

e-Nabler offers a holistic approach to mobile and cloud-based POS solutions, and we are like-minded about innovative offerings.”

Matt Downs, Vantiv Integrated Payments

“eMobilePOS is proud to announce a partnership with the innovative payment industry leader Vantiv Integrated Payments,” says Joel Vázquez, CEO and president of e-Nabler. “Vantiv’s strong channel presence and powerful payment services coupled with various hardware incentive programs will help ‘massify’ our POS offering at a time when conversion to EMV is becoming more and more pressing.”

“Vantiv is honored to partner with e-Nabler, a leader in POS software solutions, serving multiple verticals,” says Matt

Downs, head of business and channel development for Vantiv Integrated Payments. “e-Nabler offers a holistic approach to mobile and cloud-based POS solutions, and we are like-minded about innovative offerings.”

The joint offering includes diverse payment and security technologies such as end-to-end encryption, tokenization and the ability to accept contactless payments (NFC) through services such as Apple Pay and Samsung Pay. Vantiv has certified the Ingenico iPP350 EMV chip and PIN terminal for countertop use and the Ingenico iCMP EMV chip and PIN credit card entry device for pairing with a tablet or mobile device.

eMobilePOS transforms tablets and mobile devices into full-feature POS systems with integrated payments, multi-location inventory controls and a fully integrated customer loyalty program. It can be set up in a matter of minutes, and offers a variety of mobile and countertop hardware options to adapt

to space and physical conditions. The solution easily scales from a single-store operation to a chain-store operation and to venues of various sizes. eMobilePOS can be operated alone, but it also offers full integration with popular accounting, ERP and legacy POS systems. Support for online and off-line modes ensures that business does not come to a stop because of a temporary network problem. eMobilePOS is available for Android, Apple iOS and Windows 10.

About Vantiv Integrated Payments

Vantiv Integrated Payments is making payments smarter, faster and easier by partnering with software companies and technology service firms to embed payments processing in front and back office applications. Our commerce technology integrates into a broad set of point of sale systems, reaching merchants through an extensive partner network of thousands of point-of-sale software developers and value-added resellers. Our award-winning customer service and value-added solutions help businesses to streamline and build revenue through simple to use commerce solutions.

About e-Nabler Corp.

Founded in 2001, e-Nabler Corp., the company behind the award-winning eMobilePOS software, is one of the pioneers in mobile POS solutions and cloud-based software-as-a-service. eMobilePOS was the first full-featured POS app on iTunes and has, to date, processed more than 3 billion transactions. The company was recognized with the "Best New Mobile App" by AT&T during CTIA in 2008 and was awarded RSPA's Innovative Solution Award at RetailNOW 2011. eMobilePOS is available for Android, Apple iOS and Windows. For more information, please visit www.eMobilePOS.com or follow us on Twitter at @eMobilePOS and on Facebook.
