The analysts forecast the M2M Services market in the retail industry in the US to grow at a CAGR of 23.55% over the period 2015-2019.

PUNE, INDIA, February 1, 2017 /EINPresswire.com/ -- [US M2M Services Market](#)

M2M is a communication technology that allows intelligent machines to monitor and control shared information through wired and wireless communication, without any human intervention. M2M services are used in the healthcare, automotive, oil and gas, transportation, and retail industries. They are extensively used in the retail industry for real-time payments and transactions and tracking inventory levels, vending machines, ATMs, parking meters, transport management, smart cashier management, security and surveillance, and to analyze customer behavior at retail outlets. Financial institutions and banks have started using M2M technology to track remote financial transactions at retail stores.
