

Global CMOS and sCMOS Image Sensor Market Will Continue to Grow by 2027

Global CMOS and sCMOS Image Sensor Market, by CMOS Technology, Application, Processing and Spectrum - Forecast 2027

PUNE, MAHARASHTRA , INDIA , February 1, 2017 /EINPresswire.com/ -- Market Scenario:

Key Players: Sony Corporation, Panasonic Corporation , Galaxy Core Inc., SK Hynix Inc., Omni Vision Technologies Inc., Samsung electronics”

Market Research Future

The major growth driver of [CMOS and sCMOS Image sensor market](#) include increasing demand for small HD camcorders and smartphones, growing digital technology, and rising concern about security and surveillance among consumers, among others.

However, high cost and high maintenance of devices are the factors which are hindering the growth of CMOS and sCMOS Image sensor market.

Segments:

Segmentation by CMOS Technology:

FSI (Front side illumination) and BSI (Back side illumination) among others.

Segmentation by Processing & Spectrum:

2D processing, 3D processing, visible spectrum and invisible spectrum among others.

Segmentation by Applications:

Consumer electronics, automobile, aerospace and defense, surveillance and medical among others.

Key Players of CMOS and sCMOS Image Sensor Market:

- Sony Corporation (Japan)
- Panasonic Corporation (Japan)
- Galaxy Core Inc. (China)
- SK Hynix Inc. (South Korea)
- Omni Vision Technologies Inc. (US)
- Samsung electronics (South Korea)
- Toshiba Corporation (Japan)
- Canon Inc. (Japan)

CMOS Image Sensor Market Objective Study:

- To provide detailed analysis of the market structure along with forecast for the next 10 years of the various segments and sub-segments of the global CMOS and sCMOS Image Sensor Market.
- To provide insights about factors affecting the market growth.
- To Analyze the CMOS and sCMOS Image Sensor Market Development based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW).
- To provide country level analysis of the market with respect to the current market size and future prospective.
- To provide country level analysis of the market for segment by Technology, processing, applications and sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market.
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global CMOS and sCMOS Image Sensor Market.

About Market Research Future:

At Market Research Future (MRF), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRF team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
