

Dutch National Icon Groasis in Global Opportunity Report

The report from Sustainia, UN Global Compact and DNV GL turns five of the biggest global risks into 15 sustainable business opportunities.

STEENBERGEN, NOORD BRABANT, NETHERLANDS, February 6, 2017 /EINPresswire.com/ -- Groasis, a successful start-up from the Netherlands, has been selected by Sustainia, UN Global Compact and DNV GL as one of the 15 sustainable business opportunities for the five biggest global risks: unstable regions, rising inequality, cities disrupted by climate change, cyber threats and [soil depletion](#). Groasis has been included because it represents solutions/initiatives that help tackle soil depletion worldwide. Groasis has a mission and vision that is based on The Treesolution. In the book The

Treesolution Groasis explains that restoring the 2 billion hectares of degraded land on earth, through planting trees restores the depletion of the soil, produces [food](#), develops employment and leads to more wealth for poor agricultural families. Groasis works on developing technologies that help making depleted soil fertile again. Its inventions are focused on [water](#) efficiency. The Groasis Waterboxx saves over 90% water compared to drip irrigation. In the coming week Groasis will publish a break through invention that will reduce the costs of soil recovery and ecosystem restoration considerably. Groasis announced that it is considering to organize an IPO in 2020.

“

'You can't eat iPhones, so we are responsible that our children and grandchildren have sufficient fertile soil and abundance of water to grow healthy food'”
