

RVPlusYou Rolls Out New ‘Click to Call’ Feature for Owner/Members on their Delivered RV Rental Website

Web Reservation Platform Now Offers Recreational Vehicle Owners and Renters with ability to Click and Call for Coordination of Delivered RV Rentals

NIPOMO, CA, UNITED STATES, February 2, 2017 /EINPresswire.com/ -- [RVPlusYou](http://RVPlusYou.com) has rolled out a new web calling feature for RV owners and renters, the first of its kind, for any RV rental company, even the big guys!

“We’re changing the way the RV Rental process works, from top to bottom,” says Cees Dobbe, Co-Founder and Managing Partner at RVPlusYou.

Delivered RV Rental - Wine Country RV Resort

“Over 65% of travel is booked online now, and travel using RV rentals is no different,” says Dobbe. “Our website and embedded technology allows RV owners and small rental companies to coordinate a delivered RV rental with renters, all online. No one else is doing that.”

“

Our website and embedded technology allows RV owners and RV rental companies to coordinate a delivered RV rental with prospective renters, all online. No one else is doing that.”

Cees Dobbe, Co-Founder and Managing Partner

Because a delivered RV rental involves a destination (campground or private location) where the RV will be set up, it sometimes requires coordination. The platform automates the booking process and the new Click to Call feature now insures that both parties can coordinate details over the phone, as needed.

“Most of the communication between the RV owner and renter is by messaging and text alerts, but real time voice communication is sometimes required for RV rental

transactions,” Dobbe explains. “It’s comforting to hear the voice of the RV owner and know that the RV you’ve booked for your vacation will fit in the space, or that the location has the required hook ups.”

The click-to-call feature is powered by [Twilio](http://Twilio.com), a leading cloud communications platform, and uses masked phone numbers to allow our owners and renters to communicate with one another without divulging their personal phone numbers. With one click of a button in the web browser, both parties are called and conferenced together.

With RVPlusYou, there is no driving or towing involved for renters. They drive a smaller car to the

destination campground, thereby saving on gas and stress. It's set up and ready upon arrival.

RVPlusYou is the first and only RV Rental OTA (Online Travel Agency) breaking into this market. "There are an estimated 10 million RV's dispersed throughout North America," says Partner Russ Lovell. "People are looking for this kind of no-hassle experience and our solution is the absolute safest way to share an asset such as an RV, which typically sits idle 87% of the time."

RVPlusYou is a ['free to list'](#) online reservation software platform earning extra income for RV owners. All parties involved are phone and email verified, as well as reviewed and rated by each other assuring a safe, quality experience. The secure state-of-the-art system handles all phases of the transaction, including an availability calendar, reservations, deposits, and payments. The company has recently added a protection plan for renters and owners.

"We also include a \$300,000 liability protection plan and a \$5,000 damage plan. Just in case an owner needs that peace of mind, we provide it," says Lovell.

RVPlusYou was founded in 2014 by a team of experienced business professionals: Cees Dobbe and Russ Lovell are co-founders and managing partners. Based in Nipomo, California, they are dedicated to helping RV owners earn extra income while promoting a fun, healthy lifestyle to renters.
