

Cloud Based PLM Market 2016-2022: Research Report Split by Components, Applications, Technology, End Users, Applications

Global Cloud Based PLM Market on Market Information, by Component (Radio-frequency), by Application, by Technology, by End user - Forecast 2016-2022

PUNE, MAHARASHTRA, INDIA, February 7, 2017 /EINPresswire.com/ -- Market Highlights

Product lifecycle is the process of managing complex product information, engineering and manufacturing workflows, and collaboration. It basically divided into four phases that includes new product development, growth, maturity and decline.

In order to make the process simpler cloud based PLM software can into being which connects people, processes, and data across the entire product lifecycle to a central repository of information.

The report for Global Cloud PLM Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Global Cloud Based PLM Market Research Report- Forecast 2022](#)"

Major Key players

The Major Key Players are Dassault Systemes (France), PTC Inc. (U.S.), Oracle Corporation (U.S.), Autodesk, Inc.(U.S.), Arena Solutions Inc. (U.S), Aras (U.S.), Infor (U.S.)”

Market Research Future

- Dassault Systemes (France)
- PTC Inc. (U.S.)
- Oracle Corporation (U.S.)
- Autodesk, Inc.(U.S.)
- Arena Solutions Inc. (U.S)
- Aras (U.S.)
- Infor (U.S.)
- Accenture PLC (U.S.)
- Siemens AG (Germany)
- SAP SE (Germany)

Industry News

In March 2016, Oracle, launches new SaaS, PaaS, and IaaS Cloud Services to help the organizations leverage the latest in business transformation trends, including big data, social and mobile

In February 2016, Siemens and IBM join hands on next generation of cloud-based building energy management solutions

Study Objective of [Cloud Based PLM Market](#).

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Cloud Based PLM Market
- To provide insights about factors affecting the market growth
- To analyze the Cloud Based PLM Market based on various factors- value chain analysis, Porter’s five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (RoW)
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segment by type, by cloud, by end user, by server and sub-segments.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Cloud Based PLM Market

Market Segmentation

Segmentation by Component:

- Radio-frequency identification
- Near field communication
- Cloud services,

Segmentation by Application:

- Public
- Private
- Community
- Hybrid

Segmentation by Technology:

- Software as a Service (SaaS)
- Platform as a Service (PaaS)
- Infrastructure as a Service (IaaS)

Segmentation by End User:

- Aerospace and Defense
- Healthcare
- Telecommunication
- Automotive
- Electronics
