

SemaConnect electric vehicle charging stations compatible with ChargeHub app

ChargeHub users can find, start and pay for electric vehicle charging

WASHINGTON, D.C., USA, February 7, 2017 /EINPresswire.com/ -- Feb. 7, 2017 – WASHINGTON D.C. – [SemaConnect](#) Inc., the leader in electric vehicle (EV) charging solutions for Class A

SemaConnect is very excited to offer live station availability information and the ability to activate charging sessions from within the ChargeHub app.”

Roman Stanchak, lead software architect at SemaConnect

commercial properties, today announced interoperability with [ChargeHub](#), an app that helps EV drivers find and interact with networked charging stations located in Canada and the United States. The partnership allows ChargeHub users to find available SemaConnect EV charging stations and then submit a credit card payment to activate charging, all within the ChargeHub app.

“The ChargeHub team has built a beautiful and easy-to-use app for finding charging station locations,” said Roman Stanchak, lead software architect at SemaConnect. “SemaConnect is very excited to offer live station availability information and the ability to activate charging sessions from

within the ChargeHub app. Working with ChargeHub has been a great example of how an open platform builds partnerships and breaks down barriers for EV drivers in this emerging industry.”

The ChargeHub app works with SemaConnect’s Series 6 smart charging stations for commercial and public use. ChargeHub is available for download for both the iOS and Android platforms.

SemaConnect smart EV charging stations provide property owners and managers with a turnkey program that offers EV charging as a service, with the ability to easily control access, set usage fees, monitor energy use and benefit from utility incentive programs such as off-peak pricing.

About SemaConnect

SemaConnect is the leading provider of electric vehicle amenities to the North American commercial and residential property markets. A complete EV support partner, SemaConnect delivers a truly modern property experience through innovative, elegantly designed charging stations and a robust and open network. Since its founding in 2008, the company has helped maximize property value and appeal through thousands of successful Class A deployments for companies including CBRE, JLL, Hines, Greystar, Cisco Systems and Standard Parking. SemaConnect remains the preferred charging solutions partner of municipal, parking, multifamily property, hotel, office and retail customers across the United States and Canada.
