

Announcing - Flower Shop Owners Now Have Access To New Productivity Tools and Concierge Services by TieTechnology

Introducing the best VoIP communications tools to improve productivity, better customer experience, and reduce costs, courtesy of TieTechnology.

TAMPA, FL, UNITED STATES, February 24, 2017 /EINPresswire.com/ -- Businesses can now harness the [best floral shop VoIP phone systems and service plans](#), thanks to industry leader, communications provider, TieTechnology. Great telephone service is imperative to any florist, serving as the lifeblood of taking and delivering orders to customers in their localities. With VoIP communications tools, flower shops can enjoy many benefits, which include the following:

High-Quality Communications

Voice over Internet protocol, or, VoIP, is far more advanced than any traditional telephony because it uses the power and speed of the internet. VoIP does not rely on decades-old technology through crumbling infrastructure. Instead, it sends tiny data packets at super high speeds over the internet and reduces latency while substantially decreasing long distance and international calling rates. This enterprise flower shop phone service provider, TieTechnology, delivers impeccable service at an affordable cost.

Better Productivity Tools

Business owners and employees can easily be more productive using these advanced systems. Quickly locate and manage all forms of communications from one interface: texts, chat messages, email, fax, instant messages, and more. What's more, We integrate with [floral systems like RTI, Dove, Mercury, MAS and Floral Prodigy](#). With such a system in-place, productivity increases significantly.

Train Employees Easily

With VoIP [enterprise communications solutions](#), businesses can easily train employees, utilizing key features such as call monitoring and call recording. Also, owners and supervisors and managers can “barge-in” live calls to facilitate better customer experience. These tools help to improve customer satisfaction and ensure orders taken are accurate.

Enjoy Simple Setup

Traditional telephone PBX hardware, or, private branch exchange requires professional set up and configuration. It's difficult to manage, add or remove features, and, takes up a lot of space. VoIP, however, is simple to setup and requires no specialty skills. It can be configured by just about anyone and features are easy to add or remove. Businesses can manage extensions hassle-free.

Improved Collaboration

It's imperative for florists to be in touch with delivery drivers at all times. Also, customers need to be able to reach floral shops via live call on-demand. VoIP offers the best in high quality, real-time communications at an affordable price. Customers, employees, managers, and owners can enjoy improved collaboration with reliable communications tools provided through VoIP service.

Businesses can take control of their communications and data management with VoIP in a way not possible with traditional PBX telephone service. Better technology means being able to do more in less time and enjoy improved results. VoIP is a powerful business communications tool that's simple to setup, easy to manage, and offers a low cost.
