

Flower Shop Owners Benefit From New Low Cost Pricing For Business Phone Services and Apps by TieTechnology

Now there is a new and useful guide to be a successful florist store owner delivering high quality communications while lowering costs, thanks to TieTechnology.

TAMPA, FLORIDA, UNITED STATES, March 1, 2017

/EINPresswire.com/ -- TieTechnology, a [top floral recommended VoIP phone company](#),

now offers the lowest cost and best communications solutions for business today. Voice over internet protocol is fast becoming the go-to enterprise solutions choice for business communications because it dwarfs traditional telephone service in many ways. VoIP provides businesses with the communications tools and features that make a difference, like the following:

Flower Shop Owners Are Now Saving On Average \$400 On Their Phone Service and Internet.”

TieTechnology.com

Get Truly Affordable Calling Rates

TieTechnology, a quality [flower shop phone service provider](#), offers some of the best calling rates in the industry. By its design, VoIP is demonstrably less expensive than traditional telephone service. It sends tiny data packets at enormously fast speeds over the internet, reducing latency and call costs. Long distance call rates and international call rates are a fraction of traditional phone service.

Integrate Existing Systems with Ease

TieTechnology offers the best in VoIP communications that are integrated with so many flower shop systems. Integration with [floral systems like RTI, Dove, Mercury, MAS and Floral Prodigy](#) is simple and easy to this VoIP service. That translates into substantially less downtime when switching and provides the ability for a more smooth transition.

Manage All Forms of Communications in One Location

Businesses can access and manage all communications forms in one easy to use location. This access includes, but is not limited to voicemail, texts, fax, email, chat sessions, as well as instant messages. This capability is especially useful when the time is of the essence, and communications must be found right away.

Setup in Record Time and Use Features Nearly Instantaneously

With traditional telephone service, there's a lot involved to get the equipment in-place and up and running. What's more, it requires an expensive and experienced technician. VoIP is different, requiring

no specialized skill set to set up, configure, and manage. Practically anyone can do it and in little time.

Give Customers Improved Experiences

VoIP offers high-quality voice calls and with its many useful features, customer service will be better than ever. Calls can be made and answered from a number of locations and devices, allowing customers to get what they want when they want it.

Facilitate More Real Time Collaboration

Between employees and vendors, there's a lot to do in a small business. VoIP offers the ability to collaborate in a hassle free manner, at a lower cost than traditional phone service.

Add and Remove Features On Demand

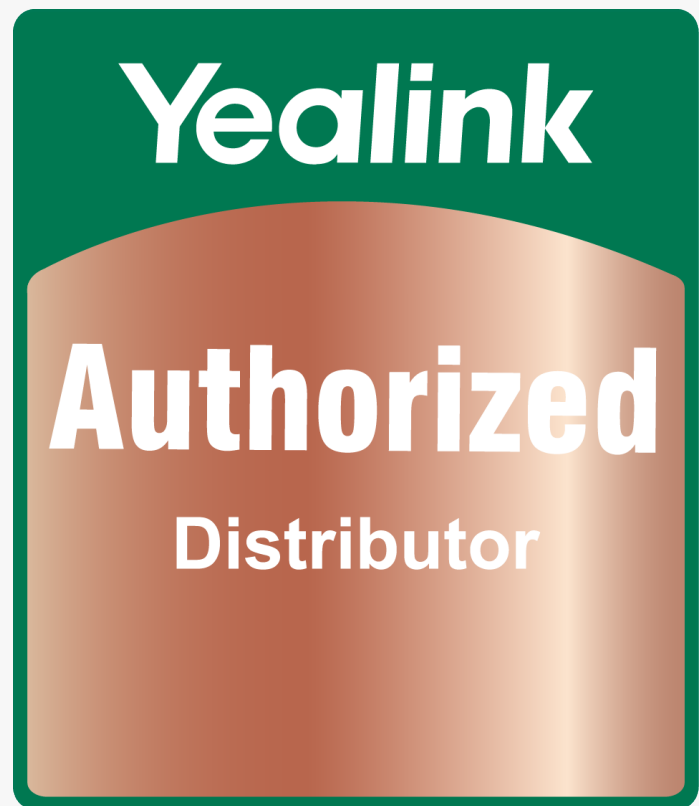

VoIP provides numerous features, including call waiting, call forwarding, call routing, call monitoring, and much more. These features can be added or removed on demand in very little time.

Voip-businessphoneservices.com nationwide services are now available in the following geographical areas:
