

# Introducing the Best in Florist Business Owner VoIP Communications Tools, Thanks to Industry Leader, TieTechnology

*Now, any florist business owner can harness the power of high quality VoIP communication tools to increase productivity and profits, Thanks to TieTechnology.*

TAMPA, FLORIDA, UNITED STATES, March 20, 2017 /EINPresswire.com/ -- With VoIP, owners and managers can better train employees for improved customer experience. Features like call [recording and call monitoring facilitate better training](#). Also, owners and managers can listen-in and conference in on live calls to help facilitate better communication. There are other valuable training and productivity available with VoIP, and, are far less expensive than traditional telephone service.

## VoIP Technology Integration

Amazing features like Call Reporting, Call Tagging, Call Tracking all work with RTI, Dove !”

*TieTechnology.com*

Unlike traditional telephone systems using PBX, or, private branch exchange, [voice over internet protocol](#) employs advanced technology. Instead of relying on infrastructure first invented in the late nineteenth century, VoIP harnesses the power and speed of the internet.

Businesses using VoIP have a decided advantage over their competitors. This technology allows companies of all sizes to improve customer relations, better collaboration and do much

more in less time. What’s more, it’s less expensive than PBX telephone equipment and service, offering a suite of robust, useful communications features. TieTechnology now integrates with [floral systems like RTI, Dove, Mercury, MAS and Floral Prodigy](#).

Voip-businessphoneservices.com nationwide services are now available in the following geographical areas:
