

Presenting Better Ways To Increase Profits As A Flower Shop Owner With Cost Cutting Tools From TieTechnology

Learn about better ways to boost profits for any florist franchise owner with high quality, low cost, enterprise communications tools, thanks to TieTechnology.

TAMPA, FLORIDA, UNITED STATES, April 16, 2017 /EINPresswire.com/ -- TieTechnology, a [top florist owner VoIP business service provider](#), offers the most advanced VoIP communications systems available on the market today. Small businesses require newly improved communications tools to stay competitive, help reduce costs, and improve productivity. Traditional phone equipment and services lack many options that VoIP provides. There are many benefits of voice over internet protocol, and, companies can:

Get More Powerful Business Communications Solutions for Less

“

Call Reporting, Call Tagging, Screen Pops are amazing to use. ”

TieTechnology.com

The [best enterprise flower shop phone service providers](#), like TieTechnology VoIP Business Phone Services, now offer comprehensive, yet affordable, communication tools that are now available for all sizes of business. Because VoIP utilizes the power and reach of the internet, it employs advanced technology which beats traditional phone service. Traditional phone service, known as PBX, or private branch exchange,

requires bulky and outdated equipment. Also, businesses need to spend a lot of money on maintenance and replacement equipment.

Plug Directly into Existing Equipment and Systems to Save More

There's no need to purchase any extras. We integrate with floral systems like [RTI, Dove, Mercury, MAS and Floral Prodigy](#). That makes switching fast and easy, significantly lessening any downtime while improving business communications. What's more, no special skills are required to setup and configure VoIP.

Manage All Business Communications from a Single Interface

In any small business, there are numerous forms of communication coming and going. VoIP enterprise solutions make it easy to access and manage all communication forms, such as email, fax, texts, voicemail, chat sessions, and instant messaging. Get these nearly instantaneously when and where needed to save time and effort.

Enjoy High-Quality Voice and Extraordinarily Less Expensive Calling Rates

Small data packets move at incredibly high rates of speed, reducing latency and improving voice quality. By using this method, long distance and international calling rates are substantially more affordable.

Use Helpful Communications Features to Improve Productivity and Customer Service

With VoIP, businesses can tap into a robust suite of helpful communications features. Enjoy call waiting, call forwarding, call monitoring, call routing, call blocking, manage extensions easily, as well as other features. Features are added and removed on demand, with minimal effort. Companies can also rely on courtesy of helpful customer support.

Relocate, Expand, and Manage Features without any Hassle

With VoIP, it's easy to relocate equipment, unlike traditional telephony, and businesses can scale up when needed. Features are simple to manage from one easy to use interface. This improves productivity immensely and allows businesses to tailor their communications to their needs.

Yealink Authorized Distributor
