

# VIRGINIA BEACH REALTOR® MARVIN PECK EARNS MILITARY RELOCATION PROFESSIONAL (MRP) CERTIFICATION

VIRGINIA BEACH, VIRGINIA, USA,  
February 9, 2017 /EINPresswire.com/ --  
Marvin Peck is a dedicated, principled  
and dependable Real Estate Agent at  
The Real Estate Group in Virginia Beach,  
Virginia.

Marvin was born in Macon, GA and grew  
up in Albany, GA. He attended the  
University of Georgia where he studied  
Landscape Architecture and Horticulture.  
Marvin took off a year from school to  
work and then graduated with a Liberal  
Arts degree with a minor in Business  
from Mercer University in Macon, GA. He  
says, "I wanted to be in business for  
myself, designing environments for  
people. I like the creative aspect of  
design."

During his college years, Marvin worked  
as a prep chef in a restaurant. After  
college, he went into Bank Management  
where he was a Loan Officer and a

Branch Manager. He assisted in opening two grocery store branch offices and helped design the  
space layout. He then worked for Virco School Furniture Manufacturing in sales before moving on to  
Wrightline Technical Furniture Manufacturing. At Wrightline he was in sales and then became an

“

I live in a wonderful Military  
town and I wanted a better  
understanding of the nuances  
of Military life, the associated  
acronyms and the reality of  
PCS'ing."

Area Manager where he managed 26 reps in 4 states. "At  
Wrightline, my job was to efficiently and ergonomically design  
work areas in high technology environments" he explains. In  
1997, he completed his "Master of Service Management"  
degree. He pursued this degree because it was his desire to  
provide his clients and employees with the highest level of  
care and service.

At Wrightline, Marvin had access to a GSA schedule for his  
products and services. The GSA was established by  
President Harry Truman to streamline the administrative work

of procurement for the federal government. His client base included all branches of the Military. As a  
Sales Rep and designer, Marvin worked with Warner Robins AFB, Fort Benning, USMC Logistics  
Support Base, Langley AFB, NASA Langley, Navy Station Norfolk, Little Creek Amphibious Base, St.

Julien's Creek Annex, Oceana Naval Air Station, Dam Neck and Ft. Monroe.

Marvin has designed Tank Battle Simulation Labs, F-15 Electronic Warfare Support Facilities, JOCS, NOCS, electronic repair labs, numerous computer rooms and numerous other highly classified electronic environments. As a Regional Manager, he worked with his sales staff in GA, FL, SC and AL. During his sales career, he won numerous Sales Awards, National Sales Contests and was consistently in the President's Club as a Top Producer.

In 2003 Marvin was in a car wreck and spent a considerable amount of time in rehab. Once he recovered, he decided to go back into the furniture business because there was still a lot of opportunity there for him, but his heart really was not in it.

In 2006, Marvin took a Life Evaluation test. The purpose of this evaluation is to help you gain an understanding of where you are in your life and what you may be missing. He recalls, "I was asked 'If you could do anything in the world, what would you do?' and I quickly responded by saying 'I want to get paid to play with dogs.' Seriously, that is exactly what I wanted to do! I was committed to developing myself as a dog trainer at a dog training academy, so I researched the field and decided to go to the Triple Crown Academy for Dog Trainers (which is now Starmark Academy) in Hutto, Texas." He continues. "A dog learns from interactions with its environment. This can be through classical conditioning, where a dog forms an association between two stimuli; non-associative learning, where behavior is modified through habituation or sensitization; and operant conditioning, where a dog forms an association between an antecedent and its consequence.

After graduating from TCA, Marvin opened his own business: Westlake Dog Training in Virginia Beach. Marvin later returned to TCA where he taught as an instructor, training students and trainers in training. After TCA, Marvin went to work for a Virginia Beach based Police and Military working dog kennel where they imported dogs from all over the world, trained them, sold them and exported them. He also assisted in training dogs in narcotics and explosive detection, tracking and protection work.

Marvin was friends with a dog breeder, Susie, who also worked in Real Estate. She encouraged him to get into Real Estate because she thought it would be a great fit for him. His family had always been in Real Estate, so it has been a huge part of his family history. In 2009, he got his Real Estate license.

Marvin currently works at The Real Estate Group, founded in 2003 by Joseph Auzenne, Steven Edwards and Gary Lundholm. The Real Estate Group quickly became the #1 full service Real Estate office in Hampton Roads and continues to set the standard for excellence in the Virginia Beach

communities. Marvin says, "The owners of the company are really great men. This firm is very agent-centric where most other companies are broker-centric. After moving to The Real Estate Group in 2013, I was in the top 17% of all Real Estate Agents in Hampton Roads in 2014 and I have consistently grown my business each year due to the training and support of The Real Estate Group. 2017 is already shaping up to be my best year ever. I love what I do and consider it an honor and a privilege to help people with the single largest investment in their life".

In 2013, Marvin got his Military Relocation Professional (MRP) Certification. "I thought it was a really important designation to have. I live in a wonderful Military town and I wanted a better understanding of the nuances of Military life, the associated acronyms and the reality of PCS'ing."

Marvin's coverage areas are Virginia Beach, Chesapeake, Norfolk, Portsmouth and Suffolk.
