

Need Practical Design Ideas for Your Workplace Furniture Project?

Formaspace has gathered many of their notable workstation products into a new, comprehensive online photo gallery. Browse it now for fresh ideas & inspiration.

AUSTIN, TEXAS, UNITED STATES, January 1, 2017 /EINPresswire.com/ -- Looking for new, innovative ideas? You've come to the right place.

We've gathered the best and brightest furniture projects into a new, comprehensive online photo Gallery. Our new Gallery presents images and detailed information previously only available to those of you who came to our Austin, Texas headquarters for a personal factory tour.

Formaspace customers—who represent 4 out of 5 companies on the Fortune 500 list—are incredibly diverse. As you'll discover in our new Gallery, this diversity is reflected in our customers' furniture installations, which range from major wet lab facilities with both modular and casework examples; to highly-efficient custom workstations for electronics manufacturing; to eye-catching bespoke conference tables; to our popular Sit-to-Stand (S2S) person's table desks; to industrial-chic home office workspaces, worthy of ultimate bragging rights.

“

We're proud to supply customers in laboratory, technical, and industrial environments with elegant, practical, and flexible furniture solutions. ”

Formaspace

Browse our new Gallery now for fresh ideas and inspiration.

Thinking about a new office space, laboratory, or factory installation? Or perhaps facility renovations are on your mind.

Our extensive online Gallery is a powerful, unique resource that lets you browse for fresh ideas and inspiration.

Ready to get inspired?

[Open the Gallery now.](#) (It works equally well on your desktop or your mobile device.)

On the opening screen, you can see we've organized the information in an easy-to-follow user interface.

First, let's take a look at each of these categories:

- * Industrial Solutions (including manufacturing, assembly, packing, and shipping)
- * Wet Lab Solutions (including modular and casework installations)
- * Tech Lab Solutions (including IT repair and server rack installations)
- * [Office Furniture](#) (including standard and fully custom office furniture projects)

Industrial Workstation Solutions

Let's click on the Industrial icon.

Near the top of the screen, you can see 'breadcrumb' navigation menu that shows we are in the Category / Industrial section of the Gallery. To select a different category, simply click on Category to go up one level.

If you are using a desktop computer, you can roll the mouse over the images to get a description. If you are using a smartphone or tablet, gently touch each image for a description.

Scroll down to the bottom of the page and click the image of the Fully Integrated Material Handling Station.

Once the image pops up on screen, you can read the descriptions to learn details about this customer's project.

You'll notice that this particular one has additional related images in the lower left corner.

To view these additional images, click on the small pictures icons. (You can also navigate the right or left arrows on the image to cycle through the related images.)

The screenshot shows the FORMASPACE website interface. At the top, there is a navigation bar with the logo, a search bar, and links for Workbenches, Get Pricing, Gallery, Articles, Support, and About. The main content area is titled 'Industrial Furniture Gallery Section' and displays a grid of industrial workstation images. A large image of a 'Fully Integrated Material Handling Station' is highlighted, with a description: 'Fully Integrated Material Handling Station. Every angle designed for efficiency and organization.' Below this image is a green 'CLICK FOR PRICING' button. To the right of the main image is a smaller version of the same image with a 'Read more...' link. Below the main image is a row of three smaller images representing related products. The second image is selected, showing a 'Contemporary Conference Room at Fundbox' with a description: 'This 14' rectangular conference table sits on top of 3 unique U-shaped steel legs powder coated in textured white.' Below this image is another green 'CLICK FOR PRICING' button.

Conference Table

Here is the third image in the sequence showing the Material Handling Workstation with HDPE countertops that prevent product damage.

What about [Laboratory Furniture](#)?

Interested in Lab furniture? Let's take a look. Click on the word Category to go up a level. (You can also click on the word 'Gallery' on the main menu to start over.)

We've divided our customer's laboratory projects into two categories, Wet Labs and Tech Labs.

Wet Labs

Let's take a look at Wet Labs first.

Here you'll see an interesting range of large and small projects, including installations that feature modular furniture, casework installations, or a mixture of the two in a single project.

If you want to print one of these images, click on it to make it full size. Then locate the small printer icon to the right of the image. Clicking on the printer icon launches a custom PDF file that you can either print right away or save for future reference.

You can also zoom and pan the onscreen images. Use the [+] and [-] icons to control the zoom level.

Technical Labs

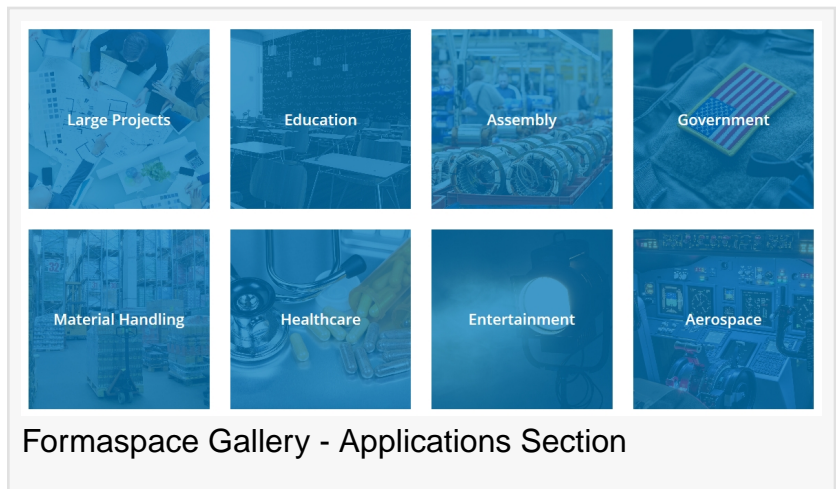

Now let's look at the technical labs category. Click Category in the breadcrumb navigation menu and then click the Tech Lab icon.

Here you can view a variety of customer projects, including examples of workstations for repairing and servicing computer servers.

Why not request a quote right from a Gallery image?

As you look over these example projects, you might be interested in having us build a similar project to your specifications. You might ask yourself, 'How much would something like this cost?' It's easy to find out.

Select the green "Click for Pricing" button, and a screen appears. Here you can submit a request for a price estimate based on the particular image you are viewing. (Tip: there is no need to describe which project you are looking at, that information will be sent to us automatically.)

Should you have your own unique requirements that you'd like to be included in the price quote, then that's easy too. Just enter any details in the text box provided. Then click "Get Quote" and one of our Formaspace Design Consultants will respond back to you right away.

Office Furniture

Now you can check out the different office furniture products Formaspace has designed and built in our Austin, Texas manufacturing headquarters for customers around the world.
