

Fuel Cell Technology Market Insights, Emerging Trends, Leading Growth Drivers and Frontiers of Growth

Fuel Cell Technology Market research report, by types (PEMFC, MCFC, SOFC, DMFC, PAFC) and by packaging (Stationary, Portable, Transportation) forecast to 2027

PUNE, MAHARASHTRA, INDIA, February 10, 2017 /EINPresswire.com/ -- About Fuel Cell Technology System

A fuel cell is a gadget that converts the chemical energy from a fuel into electricity through a chemical reaction of positively charged hydrogen particles of oxygen or another oxidizing agent. Fuel cells can be of different types such as, Proton Exchange Membrane (PEM), Solid Oxide Fuel Cell (SOFC), Molten Carbonate Fuel Cell (MCFC), and many more differentiated ones on the basis of components used and type of reaction taking place within the cell.

Key Players

- FuelCell Energy
- Hydrogenics
- Plug Power
- Ballard
- Ceramic Fuel Cell

Growth Influencers

With the increasing demand for clean and green energy due to continuous depletion of renewable resources such as oil and gas the demand for Fuel Cell Technology is bound to increase even further. Favorable policies and regulations towards such renewable energy

Market Research Report

sources is another reason which can boost the demand for the [fuel cell technology market](#).

Increasing Awareness among individuals is another factor which provides the Fuel Cell Technology with a platform which can result in generation of significant revenue from this segment.

Market Segmentation

Applications

- o Stationary
- o Portable
- o Transportation

Types

- o PEMFC
- o MCFC
- o SOFC
- o DMFC
- o BAFC
- o Others

Regional Analysis

Europe:

Europe has created a roadmap of reducing XX% CO2 emission by 2050. The EU2020 (Europe 2020 – a strategy proposed by EU) focuses on improving the demand for the fuel cell by improving the infrastructure and decreasing the cost of the fuel cells. Germany has a strong value chain with a number of small and large companies like Siemens Westinghouse, Heliocentirs and SFC Energy, and represents around 75% of all European demonstration activities. Increasing awareness among European Individuals has also increased the demand for Fuel Cell Technology the European region provides a big scope for the Fuel Cell Technology to grow.

Asia Pacific:

The Asia Pacific region is one of the leading revenue generation for Fuel Cell Technology with Japan and South Korea being the major chunk of the revenue generation regions. Increase awareness among individuals in the Asia Pacific region has also induced a significant amount of demand for the Fuel Cell Technology. Favorable government policies and regulations is another factor that the Fuel Cell Technology Market is expected to have tremendous growth in this region.

Table of Content

- 1 Report Excerpts
- 2 Market Definitions
 - 2.1 Scope of the study
 - 2.2.1 Research Objectives
 - 2.2.2 Assumptions & Limitations
 - 2.2 Market Structure
- 3 Research Methodologies
 - 3.1 Research Process
 - 3.2 Primary Research
 - 3.3 Secondary Research
 - 3.4 Market Size Forecast
 - 3.5 Forecast Model
- 4 Forecast Indicators
 - 4.1 Drivers
 - 4.2 Restraints
 - 4.3 Opportunity
 - 4.4 Trends
 - 4.5 Macroeconomic Indicators
- 5 Market Analysis
 - 5.1 Value Chain/Supply Chain Analysis
 - 5.2 Porters' Five Forces Analysis
 - 5.3 Pricing Analysis in (2014-2027)
 - 5.4 Historical Market Analysis (2010-2015)
- 6 U.S. & Global Fuel Cell Technology, Market Value & Volume Forecast (2011-2027) (USD \$Million)
 - 6.1 Introduction
 - 6.2 Fuel Cell Technology (USD \$Million) (2011-2015)
 - 6.3 Fuel Cell Technology (USD \$Million) (2016-2027)
 - 6.4 Fuel Cell Technology Market Share Analysis by Price (2011-2015)
 - 6.5 Fuel Cell Technology Market Units (2011-2015)
 - 6.6 Fuel Cell Technology Market Units (2016-2027)
 - 6.7 Fuel Cell Technology Cost Analysis (2011-2015)
 - 6.8 Fuel Cell Technology Gross Margin Analysis (2011-2015)
- 7 Fuel Cell Technology, by Industry market Value & Volume Forecast (2011-2027) (USD \$Million)
 - 7.1 Introduction
 - 7.2 Oil and Gas
 - 7.2.1 Oil and Gas Market (USD \$Million) (2011-2015)
 - 7.2.2 Oil and Gas Market (USD \$Million) (2016-2027)
 - 7.3 Chemicals
 - 7.3.1 Chemicals Market (USD \$Million) (2011-2015)
 - 7.3.2 Chemicals Market (USD \$Million) (2016-2027)
 - 7.4 HVAC
 - 7.4.1 HVAC Market (USD \$Million) (2011-2015)

7.4.2 HVAC Market (USD \$Million) (2016-2027)

Continue.....

Market Research Future introduces about the Global Fuel Cell Technology during the forecast period 2017-2027 which mainly includes the growth drivers, trends and restraints and how the market will grow in the future across the globe. In this report, Market Research Future has focused on the current market scenario which includes market segmentation, market dynamics, and competitive landscape along with company profiles.
