

# Significant Growth in Both the Number and Total Value of New Contract Wins in 2016 for Dillistone Systems

LONDON, UNITED KINGDOM, February 10, 2017 /EINPresswire.com/ -- Dillistone Systems, the leading global provider of cloud technology to executive search firms and strategic recruiting teams, is pleased to announce a [significant growth in both the number and total value of new contract wins](#) in the year. The acceleration in the company's new business sales has been noted during the latest [trading update issued to the London Stock Exchange](#).

Since the launch of FileFinder Anywhere in September 2014, followed by the launch of FileFinder Anywhere Essentials in March 2016, the first fully browser-based platform for Executive Recruiters from a major industry supplier, Dillistone Systems has seen an increase in not only new system sales but clients upgrading from the earlier versions of the product as well.

“

We've seen a dramatic increase in demand for FileFinder over the last year, in a market that is fundamentally flat. Search firms want cloud based, web delivered technology.”

*Jason Starr, Managing Director, Dillistone Systems*

Jason Starr, Managing Director of Dillistone Systems, commented: “We've seen a dramatic increase in demand for FileFinder over the last year, in a market that is fundamentally flat. I think the key reason for this is technology; Search firms want cloud based, web delivered technology. While FileFinder Anywhere offers this, our direct competitors deliver through old fashioned, Windows installed technology. That's the primary reason for our growth, in my view.”

Notes to Editors:

Dillistone Systems (<https://www.dillistone.com>) is the leading provider of Executive Search software powering recruiters and strategic recruitment teams around the world. FileFinder

Anywhere is the latest generation of FileFinder Executive Search Software, a powerful, and yet easy-to-use, combination of database, project management, web research and CRM tools.

Available as a browser-based, Cloud-hosted Web app or via a variety of alternative deployment models, hundreds of search firms and corporate clients rely on FileFinder technology to better manage their executive search process.

Dillistone Systems is part of Dillistone Group Plc ([www.dillistonegroup.com](http://www.dillistonegroup.com)), a global provider of software and services to recruitment firms and recruiting teams within major corporations.
