

# Perio Tray Named Top Innovative Dental Product

*The Perio Tray by Perio Protect was named one of the Top Innovative Products of 2017 by Dentistry Today.*

SAINT LOUIS, MISSOURI, UNITED STATES, February 22, 2017 /EINPresswire.com/ -- Perio Protect's prescription Perio Trays were named a Top Innovative Product of 2017 by [Dentistry Today](#) in their February 2017 issue.

Prescription Perio Trays, innovative tools for periodontal care, feature internal peripheral seals that deliver medication into shallow and deep pockets (>6mm). They are ideal for patients with generalized periodontal pocketing or who are struggling with maintenance, as well as for cosmetic, restorative, and geriatric cases. Research shows that the tray's delivery of 1.7% hydrogen peroxide, combined with scaling/root planing (SRP) achieves better results than SRP alone. Hygienists note reductions in inflammation and pocket depth scores, softening calculus, and more efficient appointments.

Dental delivery trays feature internal peripheral seals.”
