*LIFElines: Empowering All Aspects of Your Life by Dion McInnis brings tools and insights into discovering and using that which empowers all aspects of life.*

LEAGUE CITY, TX, USA, February 14, 2017 /EINPresswire.com/ -- "Find your purpose, creativity, love and empowerment by seeing your life differently. Use LIFElines to change your personal and professional life, your creativity and courage forever," says author Dion McInnis.

Nothing happens in a vacuum, nor does it not connect to other things in our life. Nothing happens out of nowhere, and nothing leaves without a trace, a ripple or an effect."

*Dion McInnis*

The new book, McInnis' 13th, brings to readers the tools to find in one's own life the self-reliance, courage, creativity, purpose and lovability that is often lacking. Using a process that he originally developed for seniors to rekindle memories in order to develop memoirs in a program called Memories to Memoirs (tm), McInnis shows how to see life differently in order to change perspectives that allow for genuine growth.

Combination book, workbook and guide, this small and powerful book also shows how to use the information found in the exercises to empower creativity, generate constant inspiration, strengthen relationships, promote healing and strength building, and guide leadership and management.

[Relationship](#) professionals can provide this book to clients who are dealing with marriage or family issues; counselors can use this book with clients who are looking for context, perspective and focus in life; leaders and managers will find power in the book for their team development efforts; and, [creative](#) expressionists of all types will find an unending flow of inspiration because of what they find.
