Video Intercom Devices and Equipment Market 2017 Global Trends, Market Share, Industry Size, Growth, Opportunities and Forecast to 2020

PUNE, INDIA, February 16, 2017

/EINPresswire.com/ -- [Video Intercom Devices and Equipment](#) Market is forecasted to grow at XX% CAGR and reach \$XXX million by 2020. The market is increasing at a decent pace, and isn't going to saturate throughout the forecast period due to the rising demand in the security and surveillance sector.

The need for video intercom accessories in residential and commercial buildings is rising over the years, which absolutely drives the market for the same. Although the residential applications are projected to rise, commercial applications will be rapidly escalating with ameliorating economies that lead to additional funds from the private sector and thus show the fastest growth during the forecast period. Government applications are expected to show slow progress due to the austerity acts being forced for cost cutting, especially in regions such as Europe.
