

Electric Vehicle Market is expected to Register Highest CAGR of 6% During the Forecast Period by 2022

Electric Vehicles Market Info Report by Technology (Hybrid EV's, Plug-In Hybrid EV's, and Battery EV's), by Battery Types by End Users and by Region

PUNE, MAHARASHTRA, INDIA,
February 16, 2017 /EINPresswire.com/ --
Market Highlights

[Electric vehicles](#) are powered by electric motor, which uses energy from rechargeable batteries. These vehicles are environmental friendly and do not produce any tail emission which help to reduce the pollution. Increasing interest among individuals towards the environment friendly technologies, increasing fuel prices are the primary driving factors of the Electric Vehicles Market. Government support in the form of subsidies, development of more efficient and less costly batteries is also the driving factors of the Electric Vehicles Market.

The Electric Vehicles market is expected to register a significant growth of around 6% CAGR in the next six years.

The Major Key Players are Smith Electric Vehicle, Daimler AG, General Motors, Tesla Motor, Mercedes-Benz, Nissan Motors Company, Mitsubishi Motors Corporation, Volkswagen”
Market Research Future

Major Key Players

- Smith Electric Vehicle
- Daimler AG
- General Motors
- Tesla Motor
- Mercedes-Benz
- Nissan Motors Company
- Mitsubishi Motors Corporation
- Volkswagen
- Renault S.A

Intended Audience

- Electric Vehicles manufacturing Companies
- Transportation sector consultants and Investment bankers
- Environment Related Associations
- Government as well as Independent Regulatory Authorities

Regional Analysis of Electric Vehicles

North America region is the largest market for the Electric Vehicles and expected to retain its majority by 2022. Due to increasing the commercial applications, increasing the interest among individuals towards the environment friendly technologies North America is the dominant region. It is followed by Europe and Asia Pacific. Due to countries like China, Japan, Asia-Pacific Region will show the fastest growth rate in the forecast period.

Electric vehicles are powered by electric motor, which uses energy from rechargeable batteries. These vehicles are environmental friendly and do not produce any tail emission which help to reduce the pollution.

Due to increasing the fuel prices, Government support and increasing public demand increases the Electric Vehicles market and is expected to register a significant growth of 6% in the next six years.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 100 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Electric Vehicles Market Research Report - Global Forecast to 2022](#)"

Study Objectives of Electric Vehicles Market

- To provide detailed analysis of the market structure along with forecast for the next 6 years of the various segments and sub-segments of the Global Electric Vehicles Market
- To provide insights about factors affecting the market growth
- To Analyze the Global Electric Vehicles Market based on various factors such as supply chain analysis, and Porter's five force analysis
- To provide historical and forecast revenue of the market segments and sub-segments with respect to regions and their respective key countries
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by Technology, by Battery type and by End Users.
- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Electric Vehicles Market.

Market Segmentation

Segmentation by Technology

- Hybrid EV's
- Plug-In Hybrid EV's

- Battery EV's
- Segmentation by Battery Types
- Lead Acid
 - Nickel Metal Hybrid
 - Zebra
 - Lithium Ion
- Segmentation by End Users
- Residential
 - Commercial
 - Industrial

The report for Global Electric Vehicles Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance.

The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
