

Military Airborne Collision Avoidance Systems Market sales is growing at 5% CAGR till 2021

Military Airborne Collision Avoidance Systems Market by Types(TCAS, RADAR, PCAS, GPWS, OCAS, FLARM and TAWS), by Technology, and by Geography- Forecast To 2021

PUNE, MAHARASHTRA, INDIA,
February 16, 2017 /EINPresswire.com/ --
Market Synopsis:

Increasing demand for airborne collision avoidance system (ACAS) in military UAVs, need for operational safety of manned military aircraft, and regulatory requirements of ACAS for military aircraft are the drivers for [global Military Airborne Collision Avoidance Systems market](#). The challenges associated with the market are the difficulties to develop a robust ACAS and limitations of current ACAS.

The global Military Airborne Collision Avoidance Systems market is expected to grow at a CAGR of around 5% from 2016 to 2021.

Major Key Players

The Major Key Players are Honeywell Aerospace, L-3 Communications, Rockwell Collins, SAAB , Thales

Market Research Future

- Honeywell Aerospace,
- L-3 Communications,
- Rockwell Collins,
- SAAB
- Thales

The other prominent vendors include Airbus, Alenia Aermacchi, Diehl, Indra Sistemas, Sagem, and Selex ES.

Key Findings

- The global military ACAS market was valued at \$XX million in 2015 and will reach \$XX million by

2021, growing at a CAGR of around 5%

- In 2015, Americas is leading the global Military Airborne Collision Avoidance Systems market followed by EMEA and Asia-Pacific
- Radar-based ACAS is the most widely used system across all military aircraft

The market report for Military Airborne Collision Avoidance Systems of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 112 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Military Airborne Collision Avoidance Systems Market - Forecast to 2021](#)"

Study Objectives

- To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Global Military Airborne Collision Avoidance Systems Market
- To provide insights about factors affecting the market growth
- To analyse the Global Military Airborne Collision Avoidance Systems Market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country-level analysis of the market with respect to the current market size and future prospective
- To provide country-level analysis of the market for segment by types and technology
- To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- To track and analyse competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Military Airborne Collision Avoidance Systems Market

Access Report Details @ <https://www.marketresearchfuture.com/reports/military-airborne-collision-avoidance-systems-market>

report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

The Major Topics Included in Table of Content are:

1. Introduction
2. Executive Summary
3. Scope Of The Study
4. Assumptions And Limitations

5. Research Methodology
 6. Market Size Estimation
 7. Market Factor Analysis
 8. Market Dynamics
 9. Market Segmentation
 10. Global Military Airborne Collision Avoidance Systems Market By Types, 2016-2021
 - 10.1 Market Size By Types (\$ Millions)
 - 10.1.1 TCAS
 - 10.1.2 RADAR
 - 10.1.3 PCAS
 - 10.1.4 GPWS
 - 10.1.5 OCAS
 - 10.1.4 FLARM
 - 10.1.5 TAWS
 11. Global Military Airborne Collision Avoidance Systems Market By Technology, 2016-2021
 - 11.1 Market Size By Technology (\$ Millions)
 - 11.1.1 Radar-Based System
 - 11.2.2 Lidar-Based System
 - 11.2.3 Ultrasonic System
 12. Global Military Airborne Collision Avoidance Systems Market By Region, 2016-2021
 13. Competitive Landscape
 - 13.1 Key Players And Market Share Analysis
 - 13.2 Key Development (M&A, Jvs, Partnership)
 - 13.3 Competitive Benchmarking (Financial And Operational)
 - 13.4 Key Companies To Watch
 14. Company Profile
 - 14.1 Honeywell Aerospace
 - 14.1.1 Company Overview
 - 14.1.2 Product/Business Segment Overview
 - 14.1.3 Key Financial
 - 14.1.4 Key Developments And Strategies
 - 14.2 L-3 Communications
- Continued...

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important

questions.
