North America and Europe will be close competition from 2016 to 2022. However, it is anticipated that North America will continue to dominate over Europe by 2022. As of 2015/ 2016 U.S. and Canada are the leading countries with respect to revenue generation and market penetration across the globe. Though, these countries' markets are expected to be mature, and the industry will find stagnant growth for this market after few years. However, the continual technology development may still enhance the growth of these markets.

Key questions answered in this report

- What will the market size be in 2022 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?
