

Military Electro-Optical and Infrared Systems Market is anticipated to Grow at a CAGR of 7% During 2017 – 2022

Military Electro-Optical and Infrared Systems Market by Type ,by Sensor Technology ,by Platform (Airborne, Land-based, Naval) and by Geography- Forecast To 2021

PUNE, MAHARASHTRA, INDIA, February 17, 2017 /EINPresswire.com/ -- Market Synopsis

The global [Military Electro-Optical and Infrared Systems](#) market is expected to grow at a CAGR of around 7% during 2016-2021.

As per the MRFR analysis, this growth is driven by growing demand for vetronics, introduction of InGaAs detector systems. Factors impacting the market are declining defense budget in US and UK and regulatory issues with regards to all three platforms (air, naval, and land). Shifting trend towards EO/Laser Guidance Systems is also significantly contributing towards the increase in demand.

Major Key Players

- Raytheon,
- Lockheed Martin,
- C-7 Communications Holdings, Inc.
- BAE Systems Plc.
- Thales group,
- DRS Technologies,
- Northrop Grumman,
- Elbit Systems Ltd.,
- Harris Corporation,

Key Players: Raytheon, Lockheed Martin, L-7 Communications Holdings, Inc. BAE Systems Plc. Thales group, DRS Technologies, Northrop Grumman, Elbit Systems Ltd., "

Market Research Future

- Rheinmetall Defence AG,
- Textron, Rockwell Collins, II-VI, Inc.,
- Ultra Electronics Holdings.

Key Findings

- Land based platform account approx. 80% of the market share and will dominate the market in forecast period

- APAC will register a CAGR of around 10% in the forecast followed by EMEA and APAC.
- Growing investment towards InGaAs detector system, which allows imaging in the SWIR without the necessity of an external cooling system

The market report for Military Electro-Optical and Infrared Systems of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 107 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "[Military Electro-Optical And Infrared Systems Market - Forecast to 2021](#)"

Study Objectives of Military Electro-Optical and Infrared Systems Market

- To provide detailed analysis of the market structure along with forecast for the next 5 years of the various segments and sub-segments of the Global Military Electro-Optical and Infrared Systems Market
- To provide insights about factors affecting the market growth
- To analyse the Global Military Electro-Optical and Infrared Systems Market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- To provide country-level analysis of the market with respect to the current market size and future prospective
- To provide country-level analysis of the market for segment by types and applications
- To provide strategic profiling of key players in the market, comprehensively analysing their core competencies, and drawing a competitive landscape for the market
- To track and analyse competitive developments such as joint ventures, strategic alliances,

mergers and acquisitions, new product developments, and research and developments in the Global Military Electro-Optical and Infrared Systems Market

Brief TOC

- 1. Introduction
 - 1.1 Report Description
 - 1.2 Research Objective
 - 2. Executive Summary
 - 2.1 Key Findings / Highlights
 - 2.1.1 Investment Opportunities
 - 2.1.2 Market Strategies
 - 2.1.7 Latest Developments
 - 7. Scope Of The Study
 - 7.1 Markets Covered
 - 7.2 Years Considered For The Study (2016-2021)
 - 7.2 Geographic Scope
 - 7.7 Key Stakeholders
 - 4. Assumptions And Limitations
 - 5. Research Methodology
 - 5.1 Primary Research
 - 5.2 Secondary Research
 - 5.7 Econometric And Forecasting Model

Americas is leading the market with around 40% market share and is likely to dominate the market in the forecast period followed by EMEA and APAC.

Regional and Country Analysis of Military Electro-Optical and Infrared Systems Market
Americas will dominate the electro optic and infrared sensor market during the forecast period. With increased investment and procurement of weapons systems in land, naval, and air platforms, APAC will register the maximum growth in the forecast period.

The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value and volume, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

Related Reports:-

The global Military Aircraft Avionics market is expected to grow at a CAGR of around 7% during 2016-2021. Improvement in flight safety, growing demand for synthetic vision systems, and increasing need for advanced avionics systems are the factors driving the market.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (7R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
