

Ceramic Coating for Thermal Spray 2017 Global Market Expected To Grow At CAGR Of 8.28% And Forecast To 2021

Wiseguyreports.Com Publish New Market Report On-“Ceramic Coating for Thermal Spray 2017 Global Market Expected To Grow At CAGR Of 8.28% And Forecast To 2021”.

PUNE, INDIA, February 20, 2017
/EINPresswire.com/ --

[Ceramic Coating for Thermal Spray Market 2017](#)

The analysts forecast the global thermal spray market to grow at a CAGR of 8.28% during the period 2017-2021.

Thermal spraying is the process of coating melted metallic or non-metallic materials on the surface. Materials are melted into a rod, wire, or powder form. They usually form a thick coating over the applied materials. Flame, arc, plasma, HVOF coating, detonation, cold, and laser sprays are the different types of thermal sprays present in the market.

Covered in this report

The report covers the present scenario and the growth prospects of the global thermal spray market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sale of thermal spray products.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/932081-global-ceramic-coating-for-thermal-spray-market-2017-2021>

The report, Global Thermal Spray Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors

operating in this market.

Key vendors

- Kurt J. Lesker
- Linde
- Praxair
- Sulzer

Other prominent vendors

- A&A Coatings
- Accuwright Industries
- Ardleigh Minerals
- ARTEC
- Bodycote
- Carpenter Technology
- Curtiss-Wright Surface Technologies
- Castolin Eutectic
- Eurocoating
- Flame Spray Coating
- Fujimi
- H. C. Starck
- Oerlikon Metco
- Saint-Gobain Coating Solutions
- Turbocoating

Market driver

- Superior benefits associated with thermal spraying
- For a full, detailed list, view our report

Market challenge

- High total cost of ownership
- For a full, detailed list, view our report

Market trend

- Growing demand for ceramic coating
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Key market highlights
- Market overview

PART 05: Market landscape

- Global ceramic coating for thermal spray market
- Five forces analysis

PART 06: Market segmentation by product

- Global ceramic coating for thermal spray market by product
- Global oxide-based ceramic coating for thermal spray market
- Global carbide-based ceramic coating for thermal spray market
- Global nitride-based ceramic coating for thermal spray market
- Global other types of ceramic coating for thermal spray market

PART 07: Market segmentation by end-user

- Global ceramic coating for thermal spray market by end-user
- Global ceramic coating for thermal spray market in aerospace and defense industry
- Global ceramic coating for thermal spray market in automotive industry
- Global ceramic coating for thermal spray market in healthcare industry
- Global ceramic coating for thermal spray market in energy generation industry
- Global ceramic coating for thermal spray market in other industries

PART 08: Geographical segmentation

- Global ceramic coating for thermal spray market by geography
- Ceramic coating for thermal spray market in Americas
- Ceramic coating for thermal spray market in EMEA
- Ceramic coating for thermal spray market in APAC

PART 09: Market drivers

- High demand for thermal spray ceramic coatings in automotive industry
- Increased demand from IGT manufacturers
- Increased use of titania in ceramic coating thermal spray process

PART 10: Impact of drivers

PART 11: Market challenges

- Growing preference for powder coating
- Competition from liquid coating technology
- Constraints regarding thermal spray durability

PART 12: Impact of drivers and challenges

PART 13: Market trends

- Increasing use of HVOF in aerospace and automotive industries
- Innovation in product offerings
- Advanced properties of thermal spray technology
