SUITE 600, DALLAS, TEXAS, UNITED STATES, February 22, 2017 /EINPresswire.com/ --
Description

[Global IT-as-a-Service \(ITaaS\) Market](#)

ITaaS is an IT operational method, providing an enterprise with the required amount of hardware, software, and support. Nowadays, companies have been using the ITaaS model to increase the usage of virtualization as it is not limited to cloud computing technology models such as SaaS, PaaS, and IaaS. Various benefits associated with the ITaaS model include the simplification and standardization of products and services delivered by IT, reduced cost of consumption, increased IT efficiency, and improved financial transparency, which leads to an increase in business agility and flexibility at the same time.
