

Automotive Actuators Market Insights, Key Findings, Major Manufacturers Analysis, Trends and Forecast to 2022

Global Automotive Actuators Market by Product Type (Throttle, Power Seat), Vehicle Type (Passenger Car, Light Commercial Vehicle), and Region- Forecast to 2022

PUNE, MAHARASHTRA, INDIA,
February 22, 2017 /EINPresswire.com/ --
Market Synopsis:

“ We enable our customers to
unravel the complexity.”

Market Research Future

Market Research Future published a half cooked research report on [Automotive Actuators Market](#) that contains information from 2016 to 2022

Key Players in Market are
Continental AG, Delphi
Automotive, Denso
Corporation, Hella KGaA
Hueck & Co., Robert Bosch
GmbH, Stoneridge Inc.,
Wabco Holdings Inc.,
Mitsubishi Electric
Company, Soneci SA”
Market Research Future

Market Highlights

The overall demand for automotive actuators is constantly rising, owing to the growing demand for efficient and battery driven vehicles. Moreover, a growing influence of regulations on vehicle's carbon emissions and emission ratings on OEMs are some of the major factors responsible for enhancing the global growth of automotive actuators. The increase in the overall vehicle production across the globe, the growing trend of engine downsizing, and increasingly stringent fuel efficiency norms in developing countries are the factors fuelling the growth of the automotive actuators market. The Automotive Actuators Market has witnessed substantial

growth in developing as well as developed countries.

Key Players

The key players in Automotive Actuators Market are as follows:

- Continental AG
- Delphi Automotive
- Denso Corporation
- Hella KGaA Hueck & Co.
- Robert Bosch GmbH
- Stoneridge Inc.
- Wabco Holdings Inc.
- Mitsubishi Electric Company

- Nidec Corporation
- Sonceboz SA

Scope of the Report

This study provides an overview of the global automotive actuators industry, tracking two market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia-Pacific and Rest of the World. The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global Automotive Actuators Market as Product, Vehicle and Region. On the basis of the vehicle type, the global actuators market for automotive application is categorized into the light commercial vehicle, passenger car and heavy commercial vehicle. Based on the product type, the global market is segregated into VGT actuator, EGR actuator, grille shutter actuator, throttle actuator, electrical exhaust or sound flaps actuator, wastegate actuator, power seat actuator, intake flap actuator, brake actuator, thermo module actuator. On the basis of regions, the actuators market for automotive application market is diversified into North America, Europe, Asia Pacific and Rest of the World.

Market Research Analysis:

The market is highly application based. The actuators market has evolved drastically from working mechanically to automatically. The main factors that are driving the global actuators market for automotive application are the increasing fuel efficiency rules in the developing countries and consumer awareness to use automobiles that are fuel-efficient and give high performance. The automotive market in the recent years has undergone many technological advancements in which the automotive actuators has developed to a great extent and is still developing. The main objective of the automotive industry is to increase the effectiveness and efficiency of the various functional components in the vehicle.

About Market Research Future:

At [Market Research Future \(MRFR\)](#), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRFR often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
