Report features investigational drugs from across globe covering over 20 therapy areas and nearly 3,000 indications. Drug profiles featured in the report undergoes periodic review following a stringent set of processes to ensure that all the profiles are updated with the latest set of information. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

The report helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage.

Scope

- The report provides a snapshot of the global therapeutic landscape of Alzheimer's Disease
- The report reviews pipeline therapeutics for Alzheimer's Disease by companies and

universities/research institutes based on information derived from company and industry-specific sources

- The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages
- The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities
- The report reviews key players involved Alzheimer's Disease therapeutics and enlists all their major and minor projects
- The report assesses Alzheimer's Disease therapeutics based on drug target, mechanism of action (MoA), route of administration (RoA) and molecule type
- The report summarizes all the dormant and discontinued pipeline projects
- The report reviews latest news related to pipeline therapeutics for Alzheimer's Disease

Reasons to buy

- Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage
- Identify and understand important and diverse types of therapeutics under development for Alzheimer's Disease
- Identify potential new clients or partners in the target demographic
- Develop strategic initiatives by understanding the focus areas of leading companies
- Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics
- Devise corrective measures for pipeline projects by understanding Alzheimer's Disease pipeline depth and focus of Indication therapeutics
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope
- Modify the therapeutic portfolio by identifying discontinued projects and understanding the factors that drove them from pipeline

Table of Content: Key Points

Table of Contents 2

Introduction 12

Alzheimer's Disease Overview 13

Therapeutics Development 14

Alzheimer's Disease - Therapeutics under Development by Companies 16

Alzheimer's Disease - Therapeutics under Investigation by Universities/Institutes 37

Alzheimer's Disease - Pipeline Products Glance 44

Alzheimer's Disease - Products under Development by Companies 48

Alzheimer's Disease - Products under Investigation by Universities/Institutes 78

Alzheimer's Disease - Companies Involved in Therapeutics Development 88

Alzheimer's Disease - Therapeutics Assessment 316
Drug Profiles 372
Alzheimer's Disease - Dormant Projects 1152
Alzheimer's Disease - Discontinued Products 1199
Alzheimer's Disease - Product Development Milestones 1209
