

Mom- Helps Police Fight Crime with Super Grip Lock a Godsend- says Police.

Super Grip Lock is an instant fix from the Single Great Home Security Threat of our times: Bump keys sold online so anyone can open a locked door and walk in.

SWEET HOME, OREGON, USA, February 22, 2017
/EINPresswire.com/ -- Mom- Helps Police Fight Crime!

Families have never been at greater risk- which inspired an Oregon Mom to invent \$10 deadbolt accessory that works on most deadbolts and stops anyone from unlocking it. Police call it a Godsend.

The problem includes bump keys being sold online. They are simple to use and open locked deadbolts and passage locks nearly as fast as the actual key. If you rent- or stay in a hotel/motel- passkeys and pass cards are misused every day and everywhere.

This mom discovered if the deadbolt handle is held in the locked position it can't be unlocked. Then she invented a durable hook & loop fabric lock called Super-Grip-Lock to do that job. It turns a deadbolt into a privacy lock that cannot be opened with any key.

- Police call it a Godsend. No tools are needed. Directions are on the product. Just attach and wrap as directed. So simple a child can do it says Police Lt. Bryon.

- Homeowners, renters, and travelers can instantly protect themselves against bump keys, passkeys or pass-cards by following the directions on the product

“

This Strap is a Godsend for the traveling public and those who live in rentals.”

Police Lt. Bryon of Winston, Oregon.

The National Locksmith evaluating locks for the Lock Industry since 1929 reported, "There is an unlimited potential for customers." "Even when using a working key and a pair of pliers the key broke but the deadbolt remained locked." How great is that?

Lt. Bryon 23-year police veteran wrote the LEAA a coalition of law-enforcement expert, "This Strap is a Godsend for the traveling public and those who live in rentals."

The International Association of Police Chiefs never endorses any product but they introduced Super-Grip-Lock to law enforcement in the Police Chief Magazine.

The Electronic Retail Association represents 450 companies in 45 nations awarded Super-Grip-Lock-
“One of the Ten Most Marketable Products of the Year Award.”

Mom’s invention is an instant fix for the great home security threat of our times which are bump keys available online and open deadbolts and passage locks like a key.

If you would like to help reduce crime and protect families in your community you have our permission to report any part of the information and photo’s attached and shown at www.supergriplock.com.
