

Next Generation Wireless Communication Market Share, Leading Players, Applications Analysis and Forecast to 2027

Next Generation Wireless Communication Market Technology (Wireless LAN, 3G, 4G LTE, 5G), by Application (Electronics, Telecommunication, Aerospace, Automotive)

PUNE, MAHARASHTRA, INDIA, February 24, 2017 /EINPresswire.com/ -- Market Scenario Next generation wireless communication is an advance module of current communication. Wireless communication is an option to eliminate the traditional deployment system where so many wires and systems were required. Next generation wireless communication can help to exchange the data with very high speed reduce the time of exchange.

Industry News

- AT&T has invested more than US \$1.3 billion in the wireless and wired network during 2013 to 2015 in St. Louis.
- In January 2016, Huawei and Cable & Wireless Communications Plc's announced the successful trial of fastest copper-based broadband which reach speed up to 500mbps.

Key players

- AT&T (U.S.)
- Huawei (China)
- Cisco Systems (U.S.)
- IBM Corporation (U.S.)
- NEC (Japan)
- Intel Corporation (U.S.)
- Netgear Inc. (U.S.)
- Ericsson (U.S.)

Market Segmentation

Segmentation by Technology:

- Wireless LAN
- Digital TV broadcasting
- WiMAX
- 3G
- 4G LTE
- 5G
- Wi-Fi
- Bluetooth

Segmentation by Application:

- Consumer Electronics
- Telecommunication
- Aerospace & Defense
- Retail
- Automotive
- Healthcare
- Industrial

Study Objective of Next Generation [Wireless Communication Market](#)

- oTo provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the Global Next Generation Wireless Communication Market
- oTo provide insights about factors affecting the market growth
- oTo analyze the hydroponics market based on various factors- price analysis, supply chain analysis, porter's five force analysis etc.
- oTo provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW)
- oTo provide country level analysis of the market with respect to the current market size and future prospective
- oTo provide country level analysis of the market for segment by technology, by application and sub-segments.
- oTo provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- oTo track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Global Next Generation Wireless Communication Market

Regional Analysis

North America is dominating the market of next generation wireless communication due to the advantage of technological advancement. Countries like US and Canada which falls under the umbrella of developed countries, are leading in the world in terms of technology. Currently, North America holds XX% of market share which has been valued at US \$XX billion in the year 2015. Europe stands as second biggest market for next generation wireless communication which holds XX% of market share. Asia-Pacific has emerged as fastest growing market with the CAGR of XX%. High development of Asia countries is the key factors for the market of next generation wireless communication in Asia-Pacific.

Table of Content

1. Report prologue
2. Introduction
 - 2.1 Definition
 - 2.2 Scope of the study
 - 2.2.1 Research objective
 - 2.2.2 Assumptions
 - 2.2.3 Limitations
 - 2.3 Market structure
3. Research Methodology
 - 3.1 Research process
 - 3.2 Primary research
 - 3.3 Secondary research
 - 3.4 Market size estimation
 - 3.5 Forecast model
4. Market Dynamics
 - 4.1 Drivers
 - 4.2 Restraints
 - 4.3 Opportunities
5. Market factor analysis
 - 5.1 Value chain analysis
 - 5.2 Porters five forces

The report for Global Next Generation Wireless Communication Market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario, which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report

provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.
