Global Kyphosis Market:

The vertebrae that make up a healthy spine look like cylinders stacked in a column but due to Kyphosis the vertebrae in the upper back become more wedge-shaped. This deformity can be caused by variety of problems such as osteoporosis, disk degeneration, birth defects, cancer in the spine, etc. The condition can also be caused by poor posture which can cause pain and breathing difficulties.

Market Research Analysis:

The prevalence and incidence of kyphosis in older adults vary from approximately 20%-40% among both men and women. In the coming years, it is expected that the Global Kyphosis Market will advance with higher growth rate as compared to previous years. The increasing number of surgeries and therapies has boosted the growth of the market.

Intended Audience:

- Medical devices manufacturers
- Suppliers for medical devices
- Research and Development (R&D) Companies
- Market Research and Consulting Service Providers
- Medical Research Laboratories
