

Sepsis Diagnostics Market is anticipated to grow at a CAGR of 8% during 2017 – 2022

Sepsis Diagnostics Market Info, By Technology (Molecular Diagnostics, Biomarkers, Immunoassays), By Type of Product, By End Users - Forecast Till 2022

PUNE, MAHARASHTRA, INDIA, February 27, 2017 /EINPresswire.com/ -- Market Highlights

Sepsis is a life threatening condition caused by the host immune system response for the infection caused by bacterial, viral, fungal, parasitic organisms. It occurs when the immune system gets activated due to the invasion of the bacteria to respond to that infection and then there is a release of chemicals by the immune system to treat the infection. This chemical enters in the blood stream

and this causes inflammation in the body which causes clots and leakage in blood vessels which deprives the vital activity of the organs and other body parts. This disease is caused in 3 different stages which starts with sepsis, leading to severe sepsis, and finally septic shock, which is considered as a medical emergency. Due to the rise in hospital acquired infections and improved technology to for the treatment of sepsis will help in driving the growth of the market.

On the basis of technology the market will be segmented into Molecular Diagnostics, Biomarkers, and Immunoassays among others. The molecular techniques can be applied directly on whole blood samples. They are the best choice for rapid identification of a microorganism in the blood. The main advantages of PCR detection directly from the blood are the increased sensitivity and the avoidance of time-consuming culture. This results in substantial reduction in turnaround time even compared with PCR identification from positive blood cultures.

The [global sepsis diagnostics market](#) is expected to grow at a CAGR of ~8% during the period 2016 to 2022.

Key Players - bioMérieux, Inc. (US), EKF Diagnostics (UK), Immunexpress (US), T2 Biosystems, Inc. (US), Sandstone Diagnostics, Inc. (US), Becton, Dickinson and Company (US), "

Key Players

- bioMérieux, Inc. (US),
- EKF Diagnostics (UK),
- Immunexpress (US),
- T2 Biosystems, Inc. (US),
- Sandstone Diagnostics, Inc. (US)

- Becton, Dickinson and Company (US),
- Axis-Shield Diagnostics Ltd. (Scotland),
- Tube Dx GmbH (Austria),

Intended Audience

- Sepsis diagnostics equipment manufacturers
- Sepsis diagnostics equipment suppliers
- Private research laboratories
- Research and development (R&D) companies
- Market research and consulting service providers
- Government research laboratories

Technological advances in the field of diagnostics along with increasing need for quick and accurate results. Moreover, inclination of doctors towards molecular diagnostic techniques for diagnosis are factors which will boost the growth of the Sepsis diagnostics market.

Taste the market data and market information presented through more than 30 market data tables and figures spread over 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "Sepsis Diagnostics Market Research Report- Global Forecast to 2022".

Global Sepsis Diagnostics Market:

The Global Sepsis Diagnostics Market has been evaluated as a growing market and it is expected that the market will touch high growth figures in future. Factors such the growing prevalence of chronic diseases like AIDS, cancer, diabetes among others will drive the growth of the market. The global Sepsis Diagnostics market is expected to grow with CAGR of ~8% during the forecasted period.

Regional Analysis:

Depending on geographic region, Sepsis Diagnostics market is segmented into four key regions: North America, Europe, Asia Pacific, and Middle East & Africa. Globally North America is the largest market for sepsis diagnostics as they deploy the most advanced healthcare technologies and increasing demand for the reliable and cost effective products. Europe is the second-largest market for clinical trial management system. Asia pacific region is expected to be fastest growing region in Sepsis Diagnostics market due to increasing healthcare expenditure.

Market Segmentation:

Global sepsis diagnostics market has been segmented on the basis of technology which comprises of molecular diagnostics, biomarkers, immunoassays and others. On the basis of type of product; market is segmented into kits, instruments, blood culture media and others. On the basis of end users; market is segmented into pathology laboratories, specialty clinics, hospitals, diagnostic centers and others.

The report of global sepsis diagnostics market by Market Research Future comprises of extensive primary research along with detail analysis of qualitative as well as quantitative aspects by various industry experts and key opinion leaders to gain a deeper insight of the market and industry performance.

Brief TOC

- 1 Introduction
 - 1.1 Definition
 - 1.2 Scope of Study
 - 1.3 Research Objective
 - 1.4 Assumptions & Limitations
 - 1.5 Market Structure:
- 2 Research Methodology
 - 2.1 Research Process
 - 2.2 Primary Research
 - 2.3 Secondary Research
- 3 Market Dynamics
 - 3.1 Drivers
 - 3.2 Restraints
 - 3.3 Opportunities
 - 3.4 Challenges
 - 3.5 Macroeconomic Indicators

- 4 Market Factor Analysis
 - 4.1 Porter's five forces model
 - 4.1.1 Bargaining Power of suppliers
 - 4.1.2 Bargaining Power of Customer
 - 4.1.3 Intensity of Competitor's
 - 4.1.4 Threat of New Entrants
 - 5 Global Sepsis Diagnostics Market, by Technology

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
