

# Commercial Airport Lighting Market to Post an Annual Growth Rate of 8% from 2016 to 2021

*Global Commercial Airport Lighting Market by Application (Airside Lighting, Terminal Lighting, and Landside Lighting) and by Geography - Forecast To 2021*

PUNE, MAHARASHTRA, INDIA, February 27, 2017 /EINPresswire.com/ -- Synopsis of Commercial Airport Lighting Market

“ We enable our customers to unravel the complexity.”

Market Research Future

## Market Forecast and Highlights

Commercial Airport Lighting Market is expected to grow at a CAGR of around 8% during 2016-2021. The key factors driving the growth are growing air passenger traffic, investments on airport modernization and upgradation, and increased demand for passenger and aircraft safety.

Key Players in market are Abacus Lighting, atg airports limited, Honeywell, Siemens AG, vosla Gmbh, ADB Airfield Solutions, Avlite Systems, Carmanah Technologies Corp., and Crouse-Hinds”

*Market Research Future*

As per the MRFR analysis, integration of airfield LED light fixtures, cost associated with lighting systems, and inconvenience caused due to improper visibility caused by LEDs installed at runways.

Adoption of solar LED lights to power runway, taxiway, and terminal lights, and evolution of technologies to monitor airfield lighting systems are the emerging trends, which

would impact the market in the forecast period.
