Description

Wiseguyreports.Com Adds “Healthcare Information Systems -Market Demand, Growth, Opportunities and analysis of Top Key Player Forecast to 2022” To Its Research Database

According to Statistics MRC, the Healthcare Information Systems market accounted for \$40.39 billion in 2015 and is expected to reach \$70.36 billion by 2022 growing at a CAGR of 8.2% from 2015 to 2022. Rising government initiatives, increasing healthcare costs and aging population are some of the factors driving the market growth. However, lack of experienced professionals is hampering the market. Usage of mobile devices and Cloud Technology are some of the popular trends in the market.

North America and Europe are dominating the global market due to various factors such as increasing demand for better healthcare facilities and rising needs of integrated healthcare systems in these regions. Asia Pacific is anticipated to witness high growth rate, owing to growing incidence of various diseases in the region.
