

Kenandy and Global Research Firm Frost & Sullivan to Host Webinar on Cloud-Based ERP Solutions

REDWOOD CITY, CA, UNITED STATES, March 1, 2017 /EINPresswire.com/ -- Kenandy, an enterprise resource planning (ERP) solution built natively on the Salesforce platform, and Global Research Firm Frost & Sullivan will host a Webinar on March 7 about [Cloud-Based ERP Solutions](#). The Webinar will discuss how companies still working with legacy ERP systems can leave behind siloed and manual ERP processes, point solutions, and spreadsheets, and move their ERP systems to the cloud.

What:

The Webinar titled "[Leveraging the Cloud to Break Free from ERP Constraints](#)" will discuss the advantages and benefits of moving ERP to the cloud and will examine some of the key ERP obstacles facing companies in today's business climate.

The session will include a live example of an ERP system in the cloud to give

participants a real world view of how the Kenandy solution works in action for companies. The panel participants will provide case studies of several organizations who have recently implemented a cloud-based ERP system. Panelists will also discuss the business impact made by the Kenandy ERP solution and the type of returns Kenandy customers have experienced by shifting their ERP systems to the cloud.

Frost & Sullivan recently awarded Kenandy with the #1 Cloud ERP Award for Manufacturing Product Leadership.

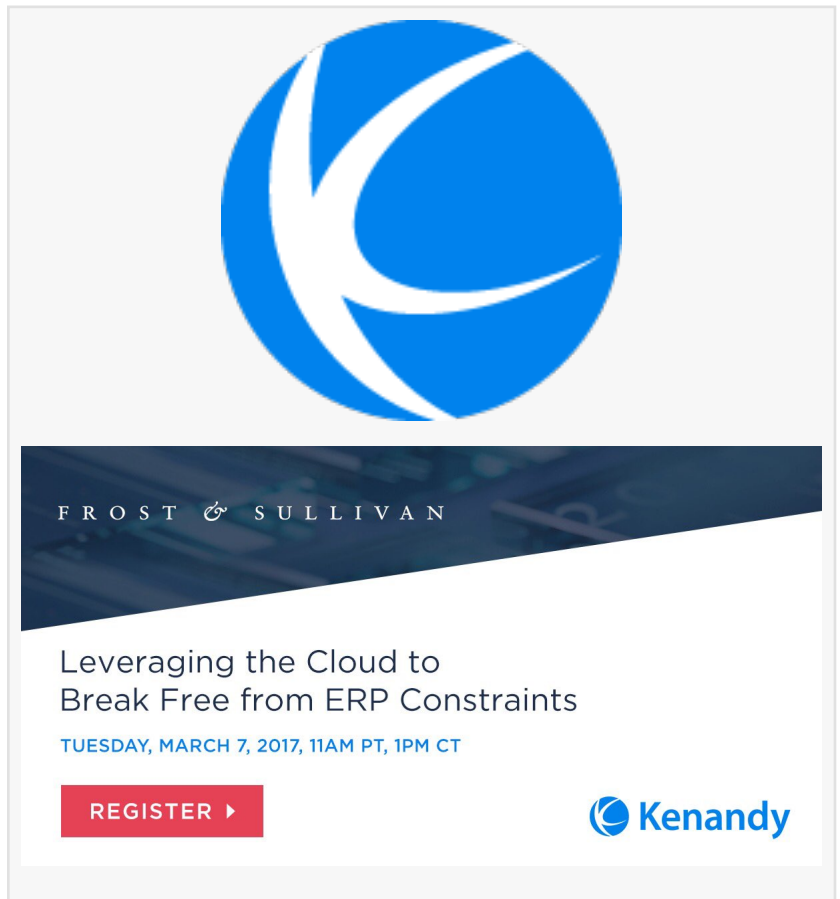

Who:

David R. Brousell, Global Vice President, Research, and Editorial Director/Manufacturing Executive, Frost & Sullivan, @DRB1
