The Definitive Conference on Software Quality and Testing

CHICAGO, ILLINOIS, USA, March 1, 2017 /EINPresswire.com/ -- The City of Chicago, Illinoisis all set to witness another episode of the Quality Engineered Software Testing Conference & Expo (Quest) during the first week of April. The event is the annualmarquee event hosted by the [QAI Global Institute](link) and this is the 37th straight year for the institute in hosting a Software Quality and Testing Conference. The conference to be held from 3rdto 7th April is the longest running annual conference dedicated specifically to Software Quality and Testing.

QUEST is a conclave of more than 500+ testing and quality professionals along with the top thought strata of leaders in SQA and testing industry. QUEST's 100+ sessions extend lucrative learning on keynotes, classes, tutorials, workshops, panels and presentations. The sessions are convened by more than 70+ test and quality assurance practitioners and industry leaders who showcase the best practices across the 5-dayprogram.

The conference is also a great centre stage for great networking opportunity extending the presence of like-minded professionals across the globe with the expertise of the domain. Sessions penetrate a wide domain of topics such as Agile, Leadership, Tools & Automation, Lean, Iot, Measurement, DevOps, Selenium, Strategy and Management.

QUEST is dedicated to convene QAI's Exclusive Managers' Solutions Workshop, a two-day event which connects you with your peers from other companies and top-notch industry thought leaders along with the QAI Global Institute's professional staff. This juncture has the aim to tackle the top challenges facing IT managers in building, testing, and delivering quality software applications amidst today's demanding environment. Experience this intense and interactive workshop as a unique opportunity to leverage group skills and knowledge in developing pragmatic solutions.

The conference also includes a two-day CSTE prep course and a two-day CSQA prep course for individuals looking to prepare for the certification examinations.

The full conference schedule is available at http://qaiquest.org/2017/conference-at-a-glance/

QUEST Exhibitor Expo

The Quest Exhibitor EXPO provides a great opportunity for the vendors and service providers of IT quality and/or testing tools and services, to reinforce brand's presence and direct client prospecting through quality interactions with hundreds of test managers and other relevant decision makers.

The conference's two-day Exhibitor EXPO is a "one-stop-shopping" opportunity for QUEST attendees to gather product and service information and speak directly with representatives from the vendor organizations.
The conference exhibitors host the EXPO reception on Thursday evening with conference attendees for additional networking opportunities.

It's not just about the Learning Experience, it's also Socializing!

Every year, there is a special gala night held exclusively for the attendees. This year too, while absorbing the breath-taking sublime views of Chicago's skyline as seen only from Lake Michigan, join the QUEST team, your fellow attendees and QUEST speakers to an unforgettable night of dining and dancing on board the Spirit of Chicago.
This perfectly ambient atmosphere solicits a great opportunity for casually networking in a lively setting! You ought not want to miss the Welcome Reception where food, drink, games and prizes create a festive atmosphere to meet new people.
