Quick Energy Facts About North Carolina:

§ North Carolina ranked fifth in the nation in net electricity generation from nuclear power in 2015, producing 5.3% of the nation's total.

§ In 2015, nuclear energy contributed the largest share of North Carolina's electricity generation—32.6%— as coal's share fell to 31.4%. Natural gas-fired generation contributed most of the rest—28.3%.

§ Some of North Carolina's power plants include Belews Creek Power Station, Roxboro Power Station, the Marshall Plant, the Harris Nuclear Plant, the Brunswick Nuclear Plant and the McGuire Nuclear station

Vital Tip from the North Carolina Mesothelioma Victims Center: "If a person was exposed to asbestos at a North Carolina power plant and now has been diagnosed with mesothelioma we are urging them or their family members to call us anytime at 800-714-0303 so that we can make some extremely good suggestions regarding some of the nation's most skilled and experienced mesothelioma attorneys. Typically, we can provide immediate access so that you are talking directly to these extremely capable-fulltime mesothelioma attorneys who specialize in compensation for power plant workers with mesothelioma. Why settle for less?"

The North Carolina Mesothelioma Victims Center wants to emphasize their campaign is a statewide initiative available to a diagnosed victim of mesothelioma anywhere in North Carolina including communities such as Raleigh, Winston-Salem, Charlotte, Greensboro, Fayetteville, Asheville, or Wilmington.

Aside from offering instant access to the nation's most skilled mesothelioma lawyers the Center is offering the best possible mesothelioma treatment options in North Carolina. The North Carolina Mesothelioma Victims Center strongly recommends the following three health care facilities with the offer to help a diagnosed victim or their family get to the right physicians at each hospital.

* Duke Cancer Institute Durham, North Carolina: <http://www.dukecancerinstitute.org/>

* UNC Lineberger Comprehensive Cancer Center Chapel Hill, North Carolina: <https://unclineberger.org/>

* Wake Forest University Baptist Medical Center Comprehensive Cancer Center Winston-Salem, North Carolina: <http://www.wakehealth.edu/Comprehensive-Cancer-Center/>

The North Carolina Mesothelioma Victims Center says, "High risk work groups for exposure to asbestos in North Carolina include Veterans of the US Navy, power plant workers, shipyard workers, steel mill workers, oil refinery workers, pulp, or paper mill workers, factory workers, plumbers, electricians, miners, auto mechanics, machinists, and construction workers.

The states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota, Louisiana, Washington, and Oregon. However, mesothelioma does happen in North Carolina.
