

Push Operations Releases a New Mobile App

Employees can now clock in and out with their mobile phone through geo tracking capabilities.

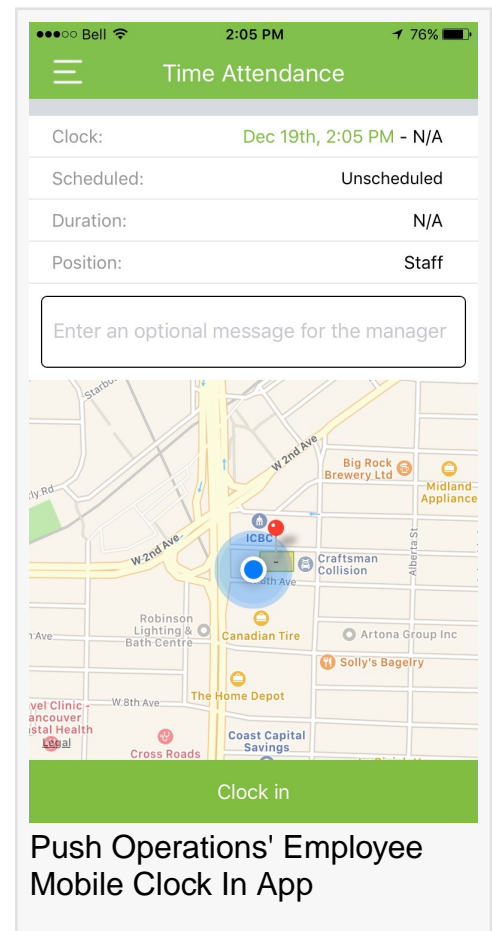

VANCOUVER, BC, CANADA, March 6, 2017 /EINPresswire.com/ -- Push Operations has recently launched a new mobile app that allows employees to clock in and out, via their mobile phones. Our new [mobile employee clock in](#) app allows staff to clock in and out through their mobile phones with geo-fencing capabilities. Available in Android and iOS, the app ensures that staff are on location while offering multi-position support and a front facing camera.

Further streamlining workforce management, our new mobile app is integrated with our [restaurant scheduling software](#) to provide management with a complete picture of actual labour costs to budgeted and sales. Our new feature is a step forward in ensuring business owners and managers have the tools to keep an accurate pulse on their business and focus of other aspects.

Push Operations is a [restaurant payroll provider](#) with over 500 clients across Canada and the US. Our integrated software allows our clients to manage their business seamlessly in one simple platform. Tailored to the restaurant and hospitality industry, Push strives to make workforce management easy with flexible services, customized real time reports, and continuous customer support.
