

Compound Chocolate Market 2017 Global Trends, Market Share, Industry Size, Growth, Opportunities and Forecast to 2021

Compound Chocolate Global Market Segmentation and Major Players Analysis and Forecast to 2021

PUNE, INDIA, March 8, 2017 /EINPresswire.com/

-- The global [Compound chocolate](#) market was XX billion US\$ in 2014 and expected to reach XX billion US\$ by 2020, growing at a CAGR of 4% during the forecasted period 2015-2020.

Compound chocolates are the chocolate substitutes that are made of cocoa or carob with vegetable fat and sweeteners. The major market drivers includes increased price of cocoa butter, limited supply of cocoa products in the market, cheaper price of compound chocolates and increasing demand in industrial and bakery applications. However, the regulation on addition of vegetable fats in chocolate by various regulatory authorities has restrained the growth of the market. Other than the regulation on vegetable fats, major factors restraining the market growth includes unhealthy nature of cheap vegetable fats along with consumer preferences for the pure chocolates among others. In this report we provide detail idea about the market, market drivers, restraining factors and opportunity. The analysed impact of drivers and restrains on the future market. We provide information about market segmentation on the basis of its Product Type, Application Type, and geography, market share analysis and the major players in the market.
