

Automotive Front End Module Industry - Overview, Manufacturing Cost Structure Analysis, Growth Opportunities & Restraints

Automotive front end module Market expected to experience growth at a rate of 6%, Automotive front end module Market by Material, by Component, by Region

PUNE, MAHARASHTRA, INDIA, March 8, 2017 /EINPresswire.com/ -- Market Scenario

Automotive Front End Module Market is expected to show a growth at CAGR of about 6% from 2016 to 2022.

Automotive front end module are multiplies assemblies that integrate the large number of parts such as forward light, radiator and cooling fans, bumpers, air conditioning condensers, and others. Rising demand for reduction in weight for vehicles and increasing demand for technically advanced light weight front end modules are expected to surge the demand for the automotive front end module.

- Hyundai Mobis

Regional Analysis

Asia-Pacific is the major regions for the automotive front end module market. Asia-Pacific is expected to show significant growth in automotive front end module market. Emerging economies like China, India, are expected to drive the market due to increasing demand for vehicles, increasing middle class disposable income & purchasing power is expected to drive the market for automotive front end module. European region is expected to witness the moderate demand because of the market maturity.

Segmentation

By Material: Steel, Composite, Plastic, and Others

By Component: Headlight, Front Grill, Radiator, Condenser, Horn Assembly, Oil Cooler and Others

By Vehicle: Passenger, Commercial

By Region: North America, Europe, Asia-Pacific and ROW

Scope of the report

This study provides an overview of the automotive front end module industry, tracking market segments across the categorized five geographic regions. The report provides a five-year forecast for the market size in terms of value for North America, Europe, Asia-Pacific, Middle East & Africa, and South America. The scope of the study segments the automotive front end module market based on Type, Application and Vehicles.
