

# China Li-ion Battery Market 2017

*Wiseguyreports.Com Publish New Market Research Report On-"China Li-ion Battery Market 2017".*

PUNE, INDIA, March 8, 2017 /EINPresswire.com/

--

## [China Li-ion Battery Market 2017](#)

China Li-ion Battery E-News provides you with real-time intelligence on China's lithium-ion battery market.

It is a monthly published newsletter, which can be downloaded in PDF format. The subscription period is yearly, grants the subscriber 12 issues in total.

China's Li-ion battery market has developed at breakneck pace in recent years, fuelled by the rise of the mobile phone, the tablet, and more lately the electric vehicle and energy storage industries.

China Li-ion Battery E-News provides you with real-time intelligence on China's lithium-ion battery market.

It is a monthly published newsletter, which can be downloaded in PDF format. The subscription period is yearly, grants the subscriber 12 issues in total.

China's Li-ion battery market has developed at breakneck pace in recent years, fuelled by the rise of the mobile phone, the tablet, and more lately the electric vehicle and energy storage industries.

Up to this point, Chinese manufacturers have used cost advantages to grab market share from their competitors in Japan, Korea and the US, but their long-term future is still uncertain as they struggle to close the R&D gap between themselves and their international competitors. Industry consolidation is also sure to accelerate over the next few years.

China Li-ion Battery E-News will help you stay ahead of the game in this fast-changing market with real-time reporting on the entire Li-ion battery industry chain, from lithium ore and brine markets through anode and cathode materials and electrolyte to the downstream consumer electronics, EV and energy storage markets.

This includes:

- Breaking news from China and abroad
- The latest market data, including price information for raw materials, intermediates and end products, import/export data, production, consumption, operating rates, etc.
- In-depth analysis of market trends, Chinese government policy, the performance of leading Chinese producers, M&A, new technologies, and more
- Expert commentary from industry insiders, including regular guest articles and interviews with insiders at leading Chinese manufacturers, associations and government organizations

## Table of Contents

### 1 Market Dynamics

- 1.1 China's Li-ion battery raw materials undergo price hikes
- 1.2 Power battery related listed companies achieve big profit growths in 2016

### 2 Company Dynamics

- 2.1 Veken Jinghua expands Li-ion battery business
- 2.2 Narada, Zhixing Hongyuan's largest shareholder
- 2.3 Zhongyeda to become shareholder of Microvast Power
- 2.4 Shandong Sanqiu: cathode material project starts
- 2.5 Gellec successfully collects USD8.75 million to expand separator capacity
- 2.6 Jiangsu Beixing starts constructing Li-ion battery separator project

### 3 Upstream Dynamics

- 3.1 Eight lithium ore producing countries worldwide in 2016
- 3.2 Tianqi Lithium to invest in lithium business
- 3.3 Lithium carbonate: gradual structural differentiation in 2017
- 3.4 Ganfeng Lithium receives first 15,000 tonnes of spodumene concentrate
- 3.5 POSCO completes its lithium carbonate factory construction

### 4 Downstream Dynamics

- 4.1 Far East cooperates with Detroit for the vehicle market
- 4.2 MIIT punishes 7 AEV manufacturers
- 4.3 Shenzhen: USD96.27 million into charging points during 2016-2020
- 4.4 Sluggish sales of AEV in China in Jan. 2017
- 4.5 Youngy to build AEV battery industrial park project
- 4.6 Anhui Jianghuai invests to build overseas factory with Mexican carmaker
- 4.7 Tesla Motors obtains metal-air battery charging technology patent

### 5 Import & Export

- 5.1 Import and export of major Li-ion battery materials and Li-ion batteries in China in Dec. 2016

### 6 Price Update

- 6.1 Ex-works prices of major Li-ion battery materials in China in Feb. 2017
- .....Continued
