

Endur ID Secures DAPA Contract

Endur ID is pleased to announce that it has secured a DAPA Contract which will allow the Department of Defense to access their Patient Identification products.

HAMPTON, NEW HAMPSHIRE, UNITED STATES, March 8, 2017 /EINPresswire.com/ -- Endur ID, of Hampton, NH is pleased to announce that it has secured a DAPA Contract (Distribution and Pricing Agreement) which will allow the Department of Defense to access the Endur ID's [Patient Identification products](#). Endur ID is a long time supplier to the Veterans Administration, and is used in over 100 VA Medical Centers. We are excited to extend the use of our [Identification wristband](#) products to those in Active Service within all branches of the United States military.

All of [Endur ID wristbands](#) are designed specifically to meet and exceed all current Joint Committee on Accreditation of Healthcare Organizations (JCAHO) recommendations. A bar-coded patient wristband is the foundation upon which all barcode medication systems and patient tracking systems are based.

Endur ID's wristbands can be easily adapted into most current patient identification systems without major investment. The only requirement is the ability to format patient information and print to a desktop laser printer. The wristband's material and construction is tough and able to withstand the rigors of a hospital environment, including showers, alcohol wipes, and other agents directly from the printer without further protection.

More information can be obtained from Endur ID. Phone (603) 758-1488, email at info@endurid.com or on the web at <http://www.endurid.com>. DAPA Contract # SPO200-17-H-0025
