Contact: David Garner - Sales Manager

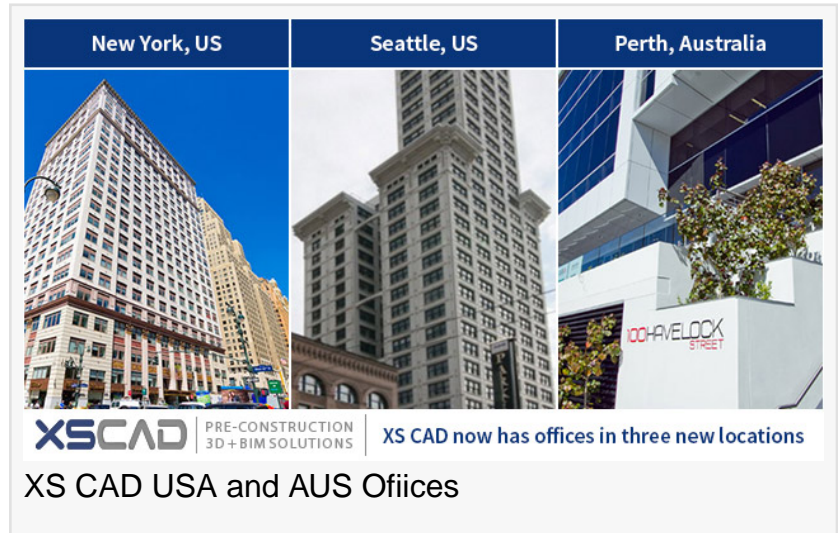

Phone: + 1800 464 187

Email: australia@xscad.com

XS CAD's largest clients are based in the US. To provide local representation in one of its key markets, Paul Fiore, Sales Manager will manage two new offices in Seattle and

New York. The focus areas of XS CAD in the US include, residential construction drawing sets, 3D rendered images, MEP coordination and BIM coordination, retail construction drawings and architectural BIM models. Paul Fiore will be the key contact for homebuilders, general contractors, MEP contractors, US-based national and international retailers and local companies to understand the needs and requirements of the region.

XS CAD has worked with customers in Australia and New Zealand for the past decade. David Garner, the new Sales Manager will manage Australian accounts from the new office opened in Perth and provide ground-based support for local companies. The focus areas of XS CAD in Australia

includes residential construction drawings, residential steel framing drawings, 3D rendered images, MEP coordination, retail construction drawings and architectural BIM models.

Working in a range of markets globally presents many challenges including different holiday periods, local cultural differences and accepted communication norms and standards. The way in which projects are managed in different countries also varies. XS CAD aims to provide a local contact in key markets for customers to benefit from local support related to contract and project set-up, ongoing management and communication. In some cases, XS CAD also provides a dedicated resource team from their production center in Mumbai, India to companies operating in different geographies.

XS CAD works with customers in countries such as the UK, US, Europe, Canada and Australia. The way forward for XS CAD is to approach each market based on the local needs and requirements, and develop technological expertise along with customers.
