Why sit on a potentially winning lotto ticket without ever knowing what it could be worth?”

Michigan Corporate Whistleblower Center

The Michigan Corporate Whistleblower Center believes that there are probably hundreds of healthcare whistleblowers who possess substantial proof their employer is overbilling Medicare in significant ways and or involved in high volume medically unnecessary procedures just so they can bill Medicare. "Why sit on a potentially winning lotto ticket without ever knowing what it could be worth? If you are a healthcare worker in Michigan and you possess this type of information, please call us at 866-714-6466 so we can discuss the

potential whistleblower reward for your information."

Simple rules for a whistleblower from the Michigan Corporate Whistleblower Center: Do not go to the government first if you are a potential whistleblower with substantial proof of wrongdoing. The Michigan Corporate Whistleblower Center says, "Major whistleblowers frequently go to the government thinking they will help. It's a huge mistake. Do not go to the news media with your whistleblower information. Public revelation of a whistleblower's information could destroy any prospect for a reward. Do not try to force a company/employer or individual to come clean about significant Medicare fraud, overbilling the federal government for services never rendered, multi-million-dollar state or federal tax evasion, or a Michigan based company falsely claiming to be a minority owned business to get preferential treatment on federal or state projects. Come to us first, tell us what type of information you have, and if we think it's sufficient, we will help you with a focus on you getting rewarded."
