PUNE, MAHARASHTRA, INDIA, March 14, 2017 /EINPresswire.com/ -- Auto injector market is expected to grow with CAGR of 17.2% from 2016 to 2022, Is Expected to Increase by USD 2.9 Billion by the End of 2022

Market Highlights

Auto injector is defined as a medical device designed to deliver a single dose of a particular drug, usually life -saving. Most auto injectors are spring-loaded syringes. These injectors were initially designed to overcome unwillingness associated with self-administration of the needle-based drug delivery device. Auto injector keeps the needle tip protected prior to injection and also has a passive safety mechanism to prevent unintentional injection. Injection depth can be adjustable or fixed and a function for needle shield removal may be incorporated.
