

# Ascites Market is estimated to grow tremendously by CAGR of 4.1% during 2017 to 2022

*Global ascites market information, by treatment (diuretics, paracentesis, surgery and others), by diagnosis by end user - Forecast to 2022*

PUNE, MAHARASHTRA, INDIA, March 15, 2017 /EINPresswire.com/ -- Market Highlights:

Ascites is describes as the condition of pathologic fluid collection within the abdominal cavity. Ascitic fluid can have many sources such as liver disease, cancers, congestive heart failure, or kidney failure. Sometimes, large amounts of fluid get accumulated in the abdomen and this causes people lose their appetite and feel short of breath and uncomfortable.

Abdominal pain, discomfort, and bloating are also frequently seen symptoms. Shortness of breath happen with large ascites due to increased pressure on the diaphragm and the migration of the fluid across the diaphragm causing pleural effusions.

## Major Key Players

Key Players - BioVie Inc. (US), Dickinson and Company (US), QED Bioscience Inc. (US), GI Supply (US) , PharmaCyte, Biotech Inc. (California), Sofinnova, Becton”

The symptoms of the ascites can appear either slowly or suddenly, depending on the cause of the fluid buildup. Most common symptoms includes sudden weight gain, a distended (swollen) abdomen, difficulty breathing when lying down, diminished appetite, abdominal pain, bloating, nausea and vomiting, heartburn among others.

For diagnosis of ascites, ultrasound, physical examination, ultrasound and CT scans, laparoscopy, angiography are available. For the treatment of ascites, diuretics, paracentesis and surgeries are available. Due to high unmet needs for treatment of malignant ascites and strong treatment pipeline the market for ascites is booming.

Taste the market data and market information presented through more than 60 market data tables and figures spread over 90 numbers of pages of the project report. Avail the in-depth table of content (TOC) & market synopsis on “[The Global Ascites Market Research Report - Forecast to 2022](#)”

#### Global Ascites Market:

The Global Ascites Market has been evaluated as a growing market and it is expected that the market will touch high growth figures in future. The research in management of cancers and related ascites is increasing and the diagnosis of ascites is expected to boost the revenues per year. The global ascites market is expected to grow with CAGR of ~4.1% during the forecasted period.

Ascites is type of disorder which causes abnormal accumulation of fluid in the abdominal cavity. Advanced liver disease or cirrhosis is the most common cause of ascites. Most theories suggest that increased pressure in the liver blood flow to the liver act as the main contributor of this disorder. The market will grow with higher growth rate due to the high occurrence of cancer diseases.

#### Market Segmentation:

##### Segmentation by treatment

- Diuretics
- Paracentesis
- Surgery

##### Segmentation by diagnosis

- Ultrasound
- CT scan
- Laparoscopy
- Angiography

##### Segmentation by end user

Brief TOC

1	Introduction
1.1	Definition
1.2	Scope of Study
1.3	Research Objective
1.4	Assumptions & Limitations
1.5	Market Structure:
2	Research Methodology
2.1	Research Process
2.2	Primary Research
2.3	Secondary Research
4	Market Factor Analysis
4.1	Porter's five forces model
4.1.1	Bargaining Power of suppliers
4.1.2	Bargaining Power of Customer
4.1.3	Intensity of Competitor's
4.1.4	Threat of New Entrants
5	Global Ascites Market, by Treatment
5.1	Introduction
5.1.1	Diuretics
5.1.2	Paracentesis
5.1.3	Surgery
5.1.4	Others
6	Global Ascites Market, by Diagnosis
6.1	Introduction
6.1.1	Ultrasound
6.1.2	CT scan
6.1.3	Laparoscopy
6.1.4	Angiography
6.1.5	Others
7	Global Ascites Market, by End User
